Many people I have loved and who are no longer on this earth and many people I still love believe that a scientific way of thinking has removed the mysteries that led less educated people to believe in a god They think the scientific advances demonstrate superior scientific thinking that has led to the erosion of the foundations of faith an erosion that no longer supports rational faith If someone you love thinks along these lines this book may be for them **UNSEEN THINGS** Jean McBride,2017-09-03 This is not an examination of the quality or quantity of your faith It is an examination of the existence of your faith There are only two responses to this examination of self Yes I am in the faith or no I am not in the faith If the answer is yes then you got there by seeking the Lord You did not pray for faith you sought God and faith came If the answer is no you will not get in the faith by praying for faith You will only get in the faith by seeking God We will never get more faith by seeking more faith When I began this Bible study my goal was simple I was in the faith but I really felt I needed more faith What I really needed was to learn more about the faith I had I learned that faith has the capacity to be in one accord with God If we seek God and His ways we will find that we have all the faith we need The purpose of seeking God is so that we will know what we can be in accord with The chapters in this book are based on the great faith chapter in the Bible Hebrews 11
