Davis, 2007-01-31 An analytically innovative work Begin Here widens the current critical focus of Asian North American literary studies by proposing an integrated thematic and narratological approach to the practice of autobiography It demonstrates how Asian North American memoirs of childhood challenge the construction and performative potential of national experiences This understanding influences theoretical approaches to ethnic life writing expanding the boundaries of traditional autobiography by negotiating narrative techniques and genre and raising complex questions about self representation and the construction of cultural memory By examining the artistic project of some fifty Asian North American writers who deploy their childhood narratives in the representation of the individual processes of self identification and negotiation of cultural and national affiliation this work provides a comprehensive overview of Asian North American autobiographies of childhood published over the last century Importantly it also attends to new ways of writing autobiographies employing comics blending verse prose diaries and life writing for children and using relational approaches to self identification among others      Chinese Cinderella & A Tragic Tale of Jealousy From Beyond the Grave Diego Santos , 2024-10-16 Chinese Cinderella and A Tragic Tale of Jealousy From Beyond the Grave are two opposite stories translated directly from Mandarin Chinese into English One characteristic they share is that they function as a Rosetta Stone rather than a simple translation If both tales are studied patiently the reader can expand their knowledge of the languages in which the work is published You can choose to read it in either traditional or simplified Chinese The full pinyin is also available in this volume You won t have to look up the meanings of key vocabulary as they are already included saving you the trouble of doing it yourself If you are a Chinese reader who wishes to read an English text but are unsure if you ll understand it you can rest assured that you ll be able to read it in its entirety This is because both languages are displayed on each page and you only need to compare them Regarding the content of the stories the text describes a version of the Cinderella fairytale that is older than the Slavic and Germanic versions but is still largely unknown in the West It is a short story consisting of 1486 Chinese characters It is here where the question is thrown to the reader because of the similarities you will find after reading it what is the true origin of this famous tale The second story is 12 943 characters long and narrates the tale of a young scholar who gets his wish fulfilled to marry a seemingly perfect young woman However the woman conceals a dreadful secret that will make your hair stand on end This tale shows us the consequences of being dragged by a feeling that regardless of the time or race we belong to we have all ever harbored in our hearts the famous jealousy      **Arts Integration in Diverse K-5 Classrooms** Liane Brouillette, 2019 This practical resource emphasizes the special contribution that visual art drama music and dance can make to student literacy and understanding of content area reading assignments Focusing on those
