Gonzalez III, Roger L. Kemp, 2023-03-21 Since 2009 at least 177 of America's schools experienced a shooting. A parent should not have to worry when their children are at a public school in their city whether it be an elementary school, a middle school, a high school, or a college campus. School safety and security are strengthened by prevention, mitigation, and response. The sections in this book educate school boards, school administrators, policymakers, academics, and parents on the importance of staying informed and accurately responding to school security and safety. The book highlights the school shootings in Columbine, Newton, Parkland, and many others that remind us of the responsibilities as citizens and communities to make schools a safe space for children. It is time to think about school shootings not merely as a problem of security but as a problem of security and education.

Conform Glenn Beck, 2014-05-06 Glenn Beck, the New York Times bestselling author of *The Great Reset*, considers the hot button issue of education in the US, exposing the weaknesses of the Common Core school curriculum and examining why liberal solutions fail. Public education is never mentioned in the constitution. Why? Because our founders knew that it was an issue for state and local governments, not the federal one. It's not a coincidence that the more the federal government has inserted itself into public education over the years, the worse our kids have fared. Washington dangles millions of dollars in front of states and then tells them what they have to do to get it. It's backdoor nationalization of education, and it's leading us to ruin. In *Conform*, Glenn Beck presents a well-reasoned, fact-based analysis that proves it's not more money our schools need; it's a complete refocusing of their priorities and a total restructuring of their relationship with the federal government. In the process, he dismantles many of the common myths and talking points that are often heard by those who want to protect the status quo. Critics of the current system are just teacher bashers. Teachers unions put kids first. Homeschooled kids suffer both academically and socially. Local control is an excuse to protect mediocrity. Common Core is rigorous and state-led. Critics of Common Core are just conspiracy theorists. Elementary school teachers need tenure. We can't reform schools until we eradicate poverty. School choice takes money away from public schools. Charter schools perform poorly relative to public schools. There is no issue more important to America's future than education. The fact that we've yielded control over it to powerful unions and ideologically driven elitists is inexcusable. We are failing ourselves, our children, and our country. *Conform* gives parents the facts they need to take back the debate and help usher in a new era of education built around the commonsense principles of choice, freedom, and accountability.
