Globalisation and Education Policy Reform in Botswana Richard Tabulawa, 2023-07-21

This book uses the global local dialect approach to explicate education policy reform in Botswana and interrogates the practical effects of the various education policies on curriculum pedagogy and governance of the Botswana General Education system. Considering the effect of three reform policies since Botswana's Independence in 1966, the book evaluates the performance of each of the policies and examines their consequences in terms of the interplay of global forces and domestic pressures. The result of this interplay has been an education landscape that while reflecting globally circulating education discourses markedly differs from those same discourses. The book argues that the State in Botswana has appropriated education policy to legitimate itself in times of crisis and that each policy has improved access to general education but collectively have failed to improve its quality, making suggestions for how this can be improved in the future. As the first book of its kind to delve into education in Botswana from a single authored critical lens, the book will be a highly relevant reading for academics, researchers, and post graduate students of African education, comparative education, education policy, and curriculum studies.

The Education System in Malawi World Bank, 2010-02-25. The Education System in Malawi: an Education Country Status Report. CSR is a detailed analysis of the current status of the education sector in Malawi, the results of which have been validated by the government of Malawi. Its main purpose is to enable decision makers to orient national policy on the basis of a factual diagnosis of the overall education sector and to provide relevant analytical information for the dialogue between the government and development partners. The analysis incorporates data and information from multiple sources such as school administrative surveys by the Ministry of Education, household surveys, and a tracer survey created especially for this study. This CSR, developed by a multi-ministerial national team supported by UNESCO, P le de Dakar, the World Bank, and GTZ specialists, updates the previous one drawn up in 2003 and consists of eight chapters, including a chapter on higher education. The analysis provides key monitoring and evaluation inputs for the overall education sector, particularly under the framework of the implementation of the National Education Sector Plan.
