14 Gauteng Business Studies June Memo:

In Full Flight Walter Carlsnaes, Philip Nel, Institute for Global Dialogue, 2006 Foreign policy is widely regarded as one of the post apartheid government's major areas of achievement yet remains one of the most challenging. In this volume leading scholars provide critical assessments of the conduct of South African foreign policy since 1994 against the background of six principles articulated by Nelson Mandela in a celebrated article published in the journal *Foreign Affairs* in 1993. While South African foreign policy has become wide ranging and complex these reflective contributions demonstrate a remarkable adherence to these principles. Aimed at stimulating thinking among policy makers, analysts and students this volume will rank as one of the most authoritative analyses and one of the most complete intellectual records of South Africa's foreign policy during the crucial first decade following its transition to democracy.
