

Lesson 4.14: Life Science – Ecosystems 2

Weekly Focus: Reading Comprehension
Weekly Skill: Group Presentations

Lesson Summary: This week students will continue to learn more about ecosystems with two different reading passages. The first passage includes information specifically about food chains and food webs. The second passage will be presented in a jigsaw – group presentation fashion – and has more information about what limits population growth in the ecosystem.

Materials Needed:

- Comprehension Reading [Unit 4.14 Handout 1](#)
- Jigsaw Reading & Group Presentations [Unit 4.14 Handout 2](#)
- Extra Work/Homework [Unit 4.14 Handout 3](#) (Spectrum Science, Grade 7, pages 116 – 117)

Objectives: Students will be able to...

- Read comprehension passages with vocabulary related to ecosystems
- Practice effective communication skills to present information from a reading passage to classmates

College and Career Readiness Standards: RI, RST, WHST, LS

ACES Skills Addressed: EC, LS, ALS, CT, SM

Notes: Please review and be familiar with classroom routine notes for: reading for fluency strategies ([Routine 2](#)), summarizing techniques ([Routine 4](#)), self-management skills ([Routine 1](#)). The notes for the different activities will help with making a smooth transition to each activity.

GED 2014 Science Test Overview – For Teachers and Students

The GED Science Test will be 90 minutes long and include approximately 34 questions with a total score value of 40. The questions will have focus on three content areas: life science (~40%), physical science (~40%), and Earth and space science (~20%). Students may be asked to read, analyze, understand, and extract information from a scientific reading, a news brief, a diagram, graph, table, or other material with scientific data and concepts or ideas.

The online test may consist of multiple choice, drop down menu, and fill-in-the-blank questions. There will also be two short answer questions (suggested 10 each) where students may have to design an experiment or identify errors in a conducted experiment, summarize, find evidence (supporting details), and reason or make a conclusion from the information (data) presented.

The work students are doing in class will help them with the GED Science Test. They are also learning skills that will help in many other areas of their lives.
