14 November Business Studies Paper 1 Memorandum:

The Medical Department Graham A. Cosmas, Albert E. Cowdrey, 1992 **United States Army in World War II.**, 1992

British Railways 1948-73 T. R. Gourvish, N. Blake, 1986 Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board's extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial performance investment and commercial policies of the British Transport Commission 1948 2 Railway Executive 1948 53 and British Railways Board 1963 73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948 73 This business history thus represents a major contribution not only to the debate about the role of the railways in a modern economy but also to that concerning the nationalised industries which have proved to be one of the most enduring problems of the British economy since the war Rearming for the Cold War, 1945-1960 Elliott Vanveltner Converse, 2012 Book Description The first publication in a multivolume series on the history of the acquisition of major weapon systems by the Department of Defense author Elliott Converse presents a meticulously researched overview of changes in acquisition policies organizations and processes within the United States military establishment during the decade and a half following World War II Many of the changes that shaped the nature and course of weapons research and development production and contracting through the end of the century were instituted between 1945 and 1960 many of the problems that have repeatedly challenged defense policymakers and acquisition professionals also first surfaced during these years This study is the first to combine the histories of the Office of the Secretary of Defense OSD and the military services into one account The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods Studies in Intelligence, 2013 History of Acquisition in the Department of Defense, Volume 1 Elliott V. Converse, 2012-06-12 This volume is a history of the acquisition of major weapon systems by the United States armed forces from 1945 to 1960 the decade and a half that spanned the Truman and Eisenhower administrations following World War II These instruments of warfare aircraft armored vehicles artillery guided missiles naval vessels and supporting electronic systems when combined with nuclear warheads gave the postwar American military unprecedented deterrent and striking power 1 They were also enormously expensive The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods The first roughly coinciding with President Truman's tenure covers the years from the end of World War II through the end of the Korean War in 1953 The second spans the two terms of the Eisenhower presidency from 1953 through early 1961 The year 1953 marked a natural breakpoint between the two periods The Korean War had ended President Eisenhower and his defense team began implementing the New Look a policy and strategy based on nuclear weapons which they believed would provide security and make it possible to reduce

military spending The New Look s stress on nuclear weapons along with the deployment of the first operational guided missiles and the rapid advances subsequently made in nuclear and missile technology profoundly influenced acquisition in the services throughout the 1950s and the remainder of the century As used in this study the term acquisition encompasses the activities by which the United States obtains weapons and other equipment In surveying the history of acquisition between 1945 and 1960 this study discusses or refers in passing to many of the hundreds of weapon system programs initiated by the services in that period but it is not a weapons encyclopedia Instead it investigates a few major programs in depth in the belief that such detailed examination best reveals the evolution of acquisition policies organizations and processes and the various forces influencing weapons programs

Pacific Islanders Under German Rule Peter J. Hempenstall, 2016-06-01 This is an important book It is a reprint of the first detailed study of how Pacific Islanders responded politically and economically to their rulers across the German empire of the Pacific Under one cover it captures the variety of interactions between the various German colonial administrations with their separate approaches and the leaders and people of Samoa in Polynesia the major island centre of Pohnpei in Micronesia and the indigenes of New Guinea Drawing on anthropology new Pacific history insights and a range of theoretical works on African and Asian resistance from the 1960s and 1970s it reveals the complexities of Islander reactions and the nature of protests against German imperial rule It casts aside old assumptions that colonised peoples always resisted European colonisers Instead this book argues convincingly that Islander responses were often intelligent and subtle manipulations of their rulers agendas their societies dynamic enough to make their own adjustments to the demands of empire It does not shy away from major blunders by German colonial administrators nor from the strategic and tactical mistakes of Islander leaders At the same time it raises the profile of several large personalities on both sides of the colonial frontier including Lauaki Namulau ulu Mamoe and Wilhelm Solf in Samoa Henry Nanpei Georg Fritz and Karl Boeder in Pohnpei or Governor Albert Hahl and Po Minis from Manus Island in New Guinea

Federal Register , 2014-02 *Divine Agitators* Mark Newman, 2004 The National Council of Churches established the Delta Ministry in 1964 to further the cause of civil rights in Mississippi the southern state with the largest black population proportionately and with the stiffest level of white resistance At its height the Ministry which was headquartered in Greenville had the largest field staff of any civil rights organization in the South Active through the mid 1970s the Ministry outlasted SNCC CORE and the SCLC in Mississippi helping to fill the vacuums when these organizations fell apart or refocused their energies In this first book length study of the Delta Ministry Mark Newman tells how the organization conducted literacy citizenship and vocational training He documents the Ministry s role in fostering the growth of Head Start and community based health care and in widening the distribution of free surplus federal food and food stamps Newman discusses among other Ministry successes the Delta Foundation which created jobs by channeling grant money to small businesses that could not secure bank loans At the same time he details the Ministry s problems from its chronic

underfunding to its uneasy relationship with the Mississippi NAACP which pursued civil rights objectives through less confrontational methods Newman examines the Freedomcrafts manufacturing cooperative and other ministry failures as well as mixed efforts such as Freedom City a collective agricultural and manufacturing community built by displaced agricultural workers Divine Agitators looks at many inadequately studied events across a time span that extends beyond the widely accepted end dates of the civil rights movement It offers new insights at the most local levels of the movement into conflict within and between civil rights groups the increasing subtlety of white resistance the disengagement of the federal government and the rise of Black Power

Overlord's Eagles John J. Sullivan, 2005-05-05 On June 6 1944 the Allies launched Operation Overlord the largest most hazardous amphibious assault in history The objective establishment of a lodgment area in Normandy from which the Allies could strike at the heart of Germany and destroy the German armed forces Air supremacy over northwest Europe was an absolute prerequisite for the success of the invasion and to achieve it the U S Army Air Forces launched two campaigns aimed at destroying the Germans transportation advantages in the area In the months and days leading up to the assault the Army Air Forces ceaselessly bombed rail centers rendering most of the railways in northern France and Belgium unusable Once the actual invasion was underway the Allies shifted to an interdiction campaign using precise air attacks on critical transportation installations near the battlefield to neutralize Germany's efforts to resupply and reinforce their troops This work makes use of many wartime records that had remained classified until recently
