2014 Matric June Time Table:

Twenty Years of Education Transformation in Gauteng 1994 to 2014 Maringe, Felix, Prew, Martin, 2015-05-05
Twenty Years of Education Transformation in Gauteng 1994 to 2014 An Independent Review presents a collection of 15 important essays on different aspects of education in Gauteng since the advent of democracy in 1994 These essays talk to what a provincial education department does and how and why it does these things whether it be about policy resourcing or implementing projects Each essay is written by one or more specialist in the relevant focus area The book is written to be accessible to the general reader as well as being informative and an essential resource for the specialist reader It sheds light on aspects of how a provincial department operates and why and with what consequences certain decisions have been made in education over the last 20 turbulent years both nationally and provincially There has been no attempt to fit the book's chapters into a particular ideological or educational paradigm and as a result the reader will find differing views on various aspects of the Gauteng Department of Education's present and past We leave the reader to decide to what extent the GDE has fulfilled its educational mandate over the last 20 years

The GCRO Barometer 2014 Darlington Mushongera, 2015-04-24 The GCRO Barometer 2014 depicts developmental progress in the Gauteng City Region GCR in a single interactive graphic using 38 indicators across ten key sectors It serves as a tracking and diagnostic tool to inform policy makers and the public on where development progress is being made and areas of concern It also serves as a tool for benchmarking Gauteng against other South African provinces and similar sized city regions across the world The GCRO Barometer 2014 is the first release and shows progress in 2012 against three base years 2002 2007 and 2011 Overall the Barometer shows that the developmental outlook for Gauteng is positive with significant progress realised between 2002 and 2012 in nearly all sectors For instance the poverty rate has fallen dramatically since 2002 and access to basic services has improved However there are challenges in areas such as Social Cohesion Governance the Labour Market and Sustainability Sadly people's perceptions of government as well as their unwillingness to participate in governance matters do not correspond to the achievements made by government during this period This should be a cause for concern for policy makers in all spheres of government as it reflects dissatisfaction with the nature and quality of services being provided as well as the methods of provision The Barometer also shows that the impact of government programmes is minimal over shorter time spans change between 2002 and 2012 is considerable but change between 2011 and 2012 is insignificant This is a cause for concern given the 5 year cycle of electoral terms for local government in South Africa The Barometer's outcomes underscore the need for government to step up policy and programme monitoring with a view to achieving immediate and positive short term impacts on communities
