*Handbook on Gender and Health* Jasmine Gideon, 2016-05-27 This Handbook brings together a groundbreaking collection of chapters that uses a gender lens to explore health care and health policy in both the Global South and North. Empirical evidence is drawn from a variety of different settings and points to the many ways in which the gendered dimensions of health have become reworked across the globe. This collection includes insightful contributions from 56 leading authorities from Africa, the Americas, Asia, Europe, and the Middle East, offering a wealth of knowledge, theoretical reflection, and empirical detail on the essential elements surrounding gender and health. Topics covered include theoretical approaches to understanding gender and health, migration, sexuality, ageing, masculinities, climate change, and sexual and reproductive rights. Split into four thematic sections, this book strives to develop a clear road map towards achieving gender justice in health. The Handbook on Gender and Health will be an important resource for researchers, students, and instructors of health policy and family and gender studies. Contributors include G. Alvarez, M. E. Ansoléaga, L. Moreno, L. Artazcoz, A. E. Birn, R. A. Burgess, A. Coates, I. Cortés, S. Del Pino, K. Devries, X. D. Berr, L. Doyal, K. Elzein, V. Escobar, B. Eveslage, C. Ewig, J. Gideon, J. Hursh, 2015-10-16 The End of Public Schools analyzes the effect of foundations, corporations, and non-governmental organizations on the rise of neoliberal principles in public education. By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians, it describes how specific policies that limit public control are advanced across all levels. Informed by a thorough understanding of issues such as standardized testing, teacher tenure, and charter schools, David Hursh provides a political and pedagogical critique of the current school reform movement as well as details about the increasing resistance efforts on the part of parents, teachers, and the general public. **The English Professor** Margaret R. O'Leary/Dennis S. O'Leary, 2016-02-04 Across the span of more than forty years, Raphael Dorman O'Leary, a professor of English rhetoric and English literature, taught his students at the University of Kansas to think straight, to put sinew into their sentences, and to embrace the magnificent literary treasures of their mother tongue. The English Professor, by authors Margaret R. O'Leary and Dennis S. O'Leary, offers a narrative of the life, work, and times of a revered Midwestern university English teacher. This memoir narrates how the professor, born in 1866, was raised on a Kansas farm in the post-bellum era. Like his father before him, he was committed to a life of learning and teaching. His colleagues knew him for his unpretentious exterior, honesty, and integrity, and his flashing anger at cheapness, vulgarity, pretense, and above all,

charlatanism When Professor O Leary died after a short illness in 1936 his personal effects passed through two generations to his grandson Dennis S O Leary who with his wife Margaret discovered his papers while restoring a family house The trove of material served as the core resource for the compilation of *The English Professor* It provides insights into the histories of Kansas and the University of Kansas and of Harvard University as well as perspectives on higher education including the teaching of English rhetoric language literature journalism and oratory in the United States *Pennsylvania Government and Politics* Thomas J. Baldino, Paula A. Duda Holoviak, 2024-03-12 This book provides a comprehensive examination of the Keystone State's formal and informal political institutions and players past and present and elucidates the place each holds in governing the commonwealth today Covering a period of more than three hundred years this volume presents a clear and succinct overview of the commonwealth's political history culture and geography interactions between office holders civil servants special interest groups and the media policy development and implementation how laws are created enacted and enforced hierarchy and interaction among state county local and special district government bodies and officials tax collection and disbursement and the political upheaval in the wake of the COVID 19 pandemic and the 2020 presidential election Featuring practical appendixes and interviews with current and past office holders bureaucrats party leaders and political journalists this astute and informative book is an indispensable tool for understanding politics in the Keystone State

**On Chester On** Graeme J. White, 2014 Although there has been a University of Chester only since 2005 its predecessor Chester College dates back further than most UK universities to 1839 This book celebrates the 175th anniversary of the foundation in 2014 The story is a remarkable one of survival and success The early College was a pioneering venture with a unique approach to learning and the University still houses the first buildings in England specifically designed for the training of teachers Three times in the 1860s the 1930s and the 1970s Chester College came near to closure only repeatedly to emerge intact and to become stronger than before In the early twenty first century the University has a growing reputation within the higher education sector and can claim some of the highest rates of student satisfaction in the country The book's title is taken from the College motto of the late Victorian and Edwardian period as appropriate today as when it was coined Show More Show Less **The Peter Fookes Engineering Geological Legacy in Geomodels, Geomaterials and Geomorphology** J.S. Griffiths, D.P. Giles, J.A. Davis, J.J. Dunlop, 2025-11-04 This book is a celebration of the life work and legacy of Professor Peter G Fookes 1933 2020 As a professional engineering geologist he worked in over 100 countries produced some 200 publications and was instrumental in setting up MSc programmes at Imperial College and Queen Mary College London From the Geological Society he was awarded the William Smith Medal 1985 and was the first recipient of the Glossop Medal 1996 Although a mainstream geologist his background in chemistry ensured he was at the forefront in concrete research and the use of geomaterials Working with academic geomorphologists notably Denys Brunsden David Jones John Doornkamp and Sir Ron Cooke he led the development of engineering geomorphology as a genuine adjunct

subject to engineering geology In addition his Glossop Lecture set engineering geology along the path of developing geomodels for use in understanding the ground conditions pertaining to engineering construction
