2014 Grade 12 June Business Paper:

Generation Jobless? P. Vogel, 2015-03-05 Offering guidance on the opportunities and threats for future generations and featuring interviews with business leaders this book provides a constructive look at change. Yearbook, 2014 Financial Literacy Education Chris Arthur, 2012-10-13 Consumer financial literacy education often appears as a helpful commonsense solution to neoliberalism and the individualization of responsibility for economic risk. However, in *Financial Literacy Education*, Neoliberalism the Consumer and the Citizen, this particular literacy is argued to be both ineffective and unjust. Socially created poverty, unemployment, and economic insecurity require more than individual consumer solutions; they require collective responses by engaged critical citizens. Utilizing concepts from Marx, Foucault, Bourdieu, and Baudrillard, this book challenges those who claim that there is no alternative to neoliberal insecurity and reduce education to a consumerist training of entrepreneurial consumer citizens who can continually invest in themselves and the market. Through an analysis of consumer financial literacy education's present and historical supports as well as its likely effects, this book argues that the choice before us is not financial illiteracy or financial literacy. Rather, the choice is between subjugation to the requirements of perpetual competition or overcoming alienation, insecurity, and exploitation. This book will appeal to those interested in understanding the conditions of our freedom in an increasingly financialized world: critical educators, philosophers, and sociologists of education and financial literacy researchers **OECD Business and Finance Outlook 2015**

OECD, 2015-06-24 This new Outlook on finance and investment presents unique data analysis and instruments looking at what might affect and change tomorrow's world of business finance and investment **Minerals Yearbook** Geological
