Tony Lesters preventable suicide and how he struggled to be recognized as a special needs person from the time he was arrested to the time he died Real case documentation that has been validated by internal reports and inspections This book will make you think about the role the criminal justice system plays with those seriously mentally ill and experiencing coping and functional difficulties No political slandering here just the facts as they were reported by KPNX investigative reporter Wendy Halloran and myself and how the family sought help in exposing the wrongful death of their son nephew leaving behind a young girl left without her father ever coming home to her This book comprehensively covers the police report the rule 11 procedures and the investigation into his death Also included are excerpts from the ACLU findings and how they applied to Tonys personal crises and how his needs were downplayed due to cultural beliefs inmates are manipulators and always have a motive thus they are liars and unworthy of trust or care for their problems Based on the same dynamics found by the ACLU experts this reveals the shoddy work of the states medical and psychiatric care standards applied in ad hoc conditions because of lack of commitment resources staffing and training Tony experienced the perfect storm when he was incarcerated and died in less than four months of doing time An exclusive peek at a crisis situation still simmering inside the department of corrections systems that has failed him and thousands of others It shows how his treatment needs were

ignored as well as his pleas unheeded resulting in his death and how they compare to today's findings still broken and still not fixed. This book is an in-depth detailed layout of the culture, the practices, the deliberate indifferences toward the mentally ill and how mentally ill persons are victimized and criminalized by political and criminal justice approaches and dynamics toward the seriously ill persons and how they must deal with the stigmas and discrimination of being a mentally ill person inside Arizona prisons. Dynamics include sociopolitical ramifications for being incarcerated, suicide watch culture, adequate care and treatment, security attitudes toward these special needs persons and much more. Real case scenarios listed from the ACLU class action lawsuit that resembles or duplicates Tony's plight, frustration and situations that ended his life. This book illustrates shoddy death investigations, marginalized attitudes about human values in prison and other cultural influences that dictate how prisons are run, prisoners are mistreated and even some darkness on solitary confinement in the detention units and max custody facilities. A real wakeup call for many who have family members in prison and others wanting to change prison conditions. Included are the family's frustrations with an agency which boasts the best defense of keeping secrets behind closed doors and the struggle KPNX and Wendy Halloran went through to get the secret video. All in all, it is an in-depth account of how a wrongful death leaves people devastated and asking the most frequent question, why? When you read this book, you will see the root of causes. After you read this book, you will understand the agony and despair a mentally ill person endures when they are labeled, ignored or ridiculed by the system that is supposedly to protect them.

Convention Center Follies Heywood T. Sanders, 2014-05-08. American cities have experienced a remarkable surge in convention center development over the last two decades with exhibit hall space growing from 40 million square feet in 1990 to 70 million in 2011, an increase of almost 75 percent. Proponents of these projects promised new jobs, new private development and new tax revenues. Yet even as cities from Boston and Orlando to Phoenix and Seattle have invested in more convention center space, the return on that investment has proven limited and elusive. Why then do cities keep building them? Written by one of the nation's foremost urban development experts, *Convention Center Follies* exposes the forces behind convention center development and the revolution in local government finance that has privileged convention centers over alternative public investments. Through wide-ranging examples from cities across the country as well as in-depth case studies of Chicago, Atlanta and St. Louis, Heywood T. Sanders examines the genesis of center projects, the dealmaking and the circular logic of convention center development. Using a robust set of archival resources including internal minutes of business consultants and the personal papers of big city mayors, Sanders offers a systematic analysis of the consultant forecasts and promises that have sustained center development and the ways those forecasts have been manipulated and proven false. This record reveals that business leaders sought not community-wide economic benefit or growth but rather to reshape land values and development opportunities in the downtown core. A probing look at a so-called economic panacea, *Convention Center Follies* dissects the inner workings of America's convention center boom and provides valuable lessons in urban government, local
