Do Interest Rate Controls Work? Evidence from Kenya Mr.Emre Alper,Mr.Benedict J. Clements,Mr.Niko A Hobdari,Rafel Moyà Porcel,2019-05-31 This paper reviews the impact of

interest rate controls in Kenya introduced in September 2016 The intent of the controls was to reduce the cost of borrowing expand access to credit and increase the return on savings However we find that the law on interest rate controls has had the opposite effect of what was intended Specifically it has led to a collapse of credit to micro small and medium enterprises shrinking of the loan book of the small banks and reduced financial intermediation We also show that interest rate caps reduced the signaling effects of monetary policy These suggest that i the adverse effects could largely be avoided if the ceiling was high enough to facilitate lending to higher risk borrowers and ii alternative policies could be preferable to address concerns about the high cost of credit

Quotas - Data Update and Simulations International Monetary Fund. Finance Dept.,International Monetary Fund. Statistics Dept.,2016-09-08 The quota database has been updated by one year through 2014 Overall the results of the update continue the broad trends observed in previous updates but the shifts between the main country groups are generally smaller Using the current quota formula the calculated quota share of Emerging Market and Developing Countries EMDCs as a group increases by 0.6 percentage points relative to the 2015 update to 49.3 percent which is about half the increase in the last update The paper takes stock of recent discussions on the quota formula including the outcome of the Quota Formula Review in 2013 and subsequent discussions in the context of the annual quota data updates It also updates the illustrative simulations of possible reforms of the quota formula presented previously using the latest data These simulations have sought to capture possible reforms that would be broadly in line with the conclusions of the Quota Formula Review and Directors guidance is sought on the relative merits of these reforms and the most productive areas for future work Download Quota Data Updated IMF Quota Formula Variables September 2016
