The Third International Adaptive and Sustainable Science, Engineering and Technology Sunday Cooke Ekpo, 2025-10-16
This proceedings presents papers from the Third International Adaptive and Sustainable Science Engineering and Technology Conference ASSET 2024 which took place in Manchester UK on July 16-18, 2024. The ASSET conference serves as an interactive forum for the advancement of the practice of adaptive and sustainable systems across the multiple disciplines and specialty areas involved with the science engineering and technology of integrated entities, complex systems and networks. The conference provides an avenue for practitioners, researchers, managers, developers, analysts, educators and users to exchange innovative ideas, concepts, applications and lessons learned in addressing domain specific problems, applications oriented topics, methodologies, standards and multidisciplinary research opportunities and findings relating to ASSET systems. Culture and Rural-Urban Revitalisation in South Africa Mziwoxolo Sirayi, Modimowabarwa Kanyane, Giulio Verdini, 2021-06-14. This book captures ground breaking attempts to utilise culture in territorial development and regeneration processes in the context of South Africa and our new normal brought by COVID 19. The fourth industrial revolution and climate change the world over. The importance of culture in rural urban revitalisation has been underestimated in South Africa and the African continent at large. Despite some cultural initiatives that are still at developmental stages in big cities such as Johannesburg, eThekweni and Cape Town, there is concern about the absence of sustainable policies and plans to support culture, creativity and indigenous knowledge at national and municipal levels. Showcasing alternative strategies for making culture central to development, this book discusses opportunities to shift culture and indigenous knowledge from the peripheries and place them at the epicentre of sustainable development and the mainstream of cultural planning which can then be applied in the contexts of Africa and the Global South. Governmental institutions, research councils, civil society organisations, private sector and higher education institutions come together in a joint effort to explain the nexus between culture, economic development, rural urban linkages, grassroots and technological innovations. *Culture and Rural Urban Revitalization in South Africa* is an ideal read for those interested in rural and urban planning, cultural policy, indigenous knowledge and smart rural village model. **Sustainable Management Practices for Employee Retention and Recruitment** Kapoor, Tanvi, Singh, Abhishek K., Sahay, Kasturi, Kaur, Harvinder, Verma, Rahul, 2025-02-21. Artificial intelligence (AI) plays a transformative role in the evolution of industry 4.0, particularly in the field of human resource management (HRM). AI technologies revolutionize workplace operations by automating tasks like recruitment, performance management and training. These innovations improve efficiency while helping organizations align employee skills with job roles, enhance decision making and streamline HR processes. However, the rise of AI in HRM also raises concerns about job displacement and potential bias in decision making. To address these issues, further research into transparency, accountability and human oversight are essential for ensuring AI's ethical and effective integration. Sustainable

Management Practices for Employee Retention and Recruitment examines the impact of sustainable management on businesses recruitment and retention practices It explores the use of computers and automation in the workplace and its impact on the financial aspects of HRM and its improvements using intelligent and autonomous systems powered by data and machine learning This book covers topics such as human capital talent development and data analysis and is a useful resource for business owners HR professionals data scientists academicians and researchers **Africa Health** ,2001
