Sustainable Development and Resilience of Tourism Deepak Chhabra, Navin Atal, Alka Maheshwari, 2024-08-29 This volume examines progress in sustainable and resilient development of niche forms of tourism from a health and wellbeing perspective. It also aims to offer deep and innovative insights on the supporting role of non-pharmaceutical interventions to enhance resilience and wellbeing of visited and visiting communities. A comparative and critical discourse of the role of hard medicine is also offered from both a core and supplementary perspective, particularly from eudaimonic and physiologically restorative standpoints. Furthermore, indigenous non-pharmaceutical interventions and spiritual healing mechanisms are discussed in the context of their potential to facilitate long-term immunity and happiness. The book conceptually situates health as a fourth pillar of sustainability and examines its role in stimulating long-lasting transformations rooted in positive psychology, inner transformation, and sustainable consumption of organic products and services. It designs an evolving transformational Quality of Life paradigm that strengthens the foundations of health, wellbeing-based sustainable development initiatives, and resilience of tourism systems. The work will be of interest to academic, professional, and various public and private stakeholders of tourism, such as destination marketing organizations, policy makers, hospitality industries, tour operators, host communities, NGOs, and government agencies.

exaggeration create resonances which hold up a distorted but highly revealing mirror to the multiple subgroups of people who ride motorcycles for pleasure The author also demonstrates how the implied biker readers of this subgenre confront comic representations of themselves which repeatedly undermine any positive self image they may possess Yet the comics are also seen to offer valuable insights into much broader cultural concerns ranging from subculture consumption habits in authenticity taste freedom risk and delinquency without forgetting other key aspects of cultural studies like class race and ethnicity gender sexuality and ecocriticism
