Thomas,2021-09-15 This book draws together international research to assess the quality of successful efforts to retain students The editors and contributors unite diverse global research from countries who have led student retention and success projects at national institutional faculty or program level with positive outcomes The book is underpinned by the philosophy that a more diverse student population requires higher education institutions to fundamentally change in order to facilitate the success of all students All of humanity its economies and societies are being pummelled by waves of pandemic induced crises in tandem with globalisation and demographic shifts Ultimately this book acts as a clarion to higher education institutions to better support and retain their students in order to create a more stable learning environment *Legal*
