and what we are In the west we use the Zodiac star signs with our ancestors believing that depending on the time of the year we were born certain traits will be installed into us that will mould our personalities The Chinese also have a complicated Zodiac but rather than the time of year you inherit your traits depending on the actual year you were born and the influence of the ruling Animal at the time This has a great bearing on the building of ones personality In this book you can discover what both Zodiacs have to say and build your own personality profile Also find out what effect your ruling plant has and mix it with your birthstones influence and refine your predicted personality Once all the information is gathered combine it all together and discover if your are what both the Zodiacs predicted You can also see what are some famous events that occurred in your Birth Time and Famous people that share your profile

The Full Moons: Topical Letters In Esoteric Astrology Malvin Artley,2014-06-12 The Full Moons is an exploration of the Sun the Moon the Truth and their interrelation and it is the culmination of over ten years of letters the author has written on esoteric astrology A compendium of topics in esoteric astrology it explores the emerging universal spirituality gradually unfolding through the current decades as seen from the perspective of topical world events even though the principles investigated therein are timeless The twelve astrological signs each give a unique insight into various aspects of spirituality and each one has its own story to tell on the great evolutionary path of the soul Because the soul is so dear to us even though the subject matter of the book is esoteric in its presentation there is something in its pages for everyone

whether or not you have an astrological background Ultimately this book can be used as reference material for the times of the full moon each month and for specified times in between The book is extensively indexed for ease of reference and it contains abundant reference material in the appendices along with a glossary of esoteric terminology **The Piatkus Dictionary of Mind, Body and Spirit** Paula Byerly Croxon, 2003 A reference that covers all aspects of the mind body spirit field of interest with the emphasis on alternative health and lifestyle topics rather than occultism Both an expert's guide and a browser's delight it offers over 1000 entries together with illustrations and a bibliography *National Astrological Journal*, 1933 *Esoteric Astrology - Vol. 4* Dr. Douglas M. Baker, 2015-02-11 Esoteric Astrology Vol 4 Rising Signs Aries through Virgo The Theory Interpretation and Practice This publication takes a new and revitalised look at astrology It is simple to understand yet remains a powerful tool capable of providing a solid foundation for the comprehension of this broad and magnificent subject This textbook like most of Dr Baker's printed books eBooks and DVDs enhances your studies via many charts lists tables and images over 100 in this one This major work is a very comprehensive introduction for those who want to study this subject in earnest and for the more advanced student it will serve as an essential reference manual In today's computer based world it is no longer necessary to spend hours calculating a horoscope when the most modest PCs can do it in seconds and with 100% accuracy Consequently the needless paraphernalia usually associated with learning astrology has been stripped away Emphasis is placed on the application of astrology to the unique problems of the modern world its use as a method of revealing purpose and meaning in life and ultimately as a key to the psychosynthesis of personality The horoscope is described in comprehensive detail with special attention given to the esoteric ruling planets of the zodiac signs which are more relevant than orthodox rulers in the charts of spiritually minded people The new rulers also accommodate the immense changes in external conditions and inner consciousness that have occurred in the last hundred years and are related to a new range of experience which the brain registers as the external of the modern world The significance of karma is represented for it gives dramatic effect to our daily actions and the third factor of esoteric psychology lying beyond our understanding of heredity and environment is given full prominence This integrative and enriching work can be read alone as a fascinating introduction and foundation to the New Astrology or can be followed up with the author's extensive range of astrological books and video tapes audio lectures and the all embracing Dictionary of Astrology for the 21st Century Together they provide a complete system for the professional and novice alike containing efficient and extraordinary techniques of interpretation which have never been used before and which halve the time required to assimilate and practise astrology
