democracies As the Secretary General of the Council of Europe Thorbjørn Jagland has said on several occasions our societies seek to address 21st century issues through 19th century institutions Through contributions by authors from Europe North America and other parts of the world this book explores how higher education can help find new ways to develop commitment to public space and societal engagement and make democracy more vibrant *Social Media and Modern Society - How Social Media Are Changing the Way We Interact with the World Around* Ján Višňovský, Jana Majerová, 2024-11-27 This book offers a compelling exploration of how social media platforms are reshaping contemporary life and driving economic political and cultural transformations It brings together theoretical insights and empirical studies to examine the multifaceted impact of social media on communication behavior policy and societal norms The various chapters address critical issues such as digital marketing social responsibility and the role of influencers emphasizing how businesses and individuals are navigating the evolving digital landscape The book delves into pressing concerns including the psychological effects of social media on youth the spread of misinformation and the challenges of digital addiction It highlights the dual nature of social platforms as both enablers of civic engagement and sources of division presenting case studies on topics such as political discourse community activism and local democracy **Cross Reality and Data Science in Engineering** Michael E. Auer, Dominik May, 2020-08-20 Today online technologies are at the core of most fields of engineering and society as a whole This book discusses the fundamentals applications and lessons learned in the field of online and remote engineering virtual instrumentation and other related technologies like Cross Reality Data Science Big Data Internet of Things Industrial Internet of Things Industry 4.0 Cyber Security and M2M Smart Objects Since the first Remote Engineering and Virtual Instrumentation REV conference in 2004 the event has focused on the use of the Internet for engineering tasks as well as the related opportunities and challenges In a globally connected world interest in online collaboration teleworking remote services and other digital working environments is rapidly increasing In this context the REV conferences discuss fundamentals applications and experiences in the field of Online and Remote Engineering as well as Virtual Instrumentation Furthermore the conferences focus on guidelines and new concepts for engineering education in higher and vocational education institutions including emerging technologies in learning MOOCs MOOLs and open resources This book presents the proceedings of REV2020 on Cross Reality and Data Science in Engineering which was held as the 17th in series of annual events It was organized in cooperation with the Engineering Education Transformations Institute and the Georgia Informatics Institutes for Research and Education and was held at the College of Engineering at the University of Georgia in Athens GA USA from February 26 to 28 2020 Tutankhamun and Carter Rogerio Sousa, Gabriele Pieke, Tine Bagh, 2024-08-15 First scholarly multi disciplinary re assessment of Howard Carter's discovery and excavation of Tutankhamun's tomb and the impact of the find on our understanding of the material culture of Ancient Egypt The discovery of the tomb of Tutankhamun in 1922 stands out as one of the most important finds of modern archaeology revealing an

enormous wealth of objects encapsulating techniques vestiges of uses and re uses of materials as well as unrivalled clues regarding the complex set of beliefs associated with the pharaonic funerary material culture Once cleared from the tomb these objects have captivated the world with their irresistible charm and beauty ending up playing a role in contemporary popular culture However it seems that such magnetism rather hindered than facilitated the scholarly study of the find One hundred years after the discovery of this magnificent tomb most of its objects remain insufficiently studied to this day This volume aims to show how it remains challenging to study Tutankhamun s objects gathering a collection of studies authored by leading scholars on conservation materials funerary beliefs as well as the reception of motifs and the impact of the discovery Through these studies it becomes clear how ancient objects can help us reconstruct the complex fabric of the ancient Egyptian society and how they keep interacting with modern audiences Ephemeral Cinema Spaces Maria Vélez-Serna, 2025-10-01 With changing technologies and social habits the communal cinema experience would seem to be a legacy from another era However the 2010s saw a surge in interest for screening films in other temporary public settings This desire to turn ruins pubs galleries parks village halls and even boats into ephemeral cinema spaces is a search for ways of being and working together using cinema as a framework for social encounter This book documents contemporary practices of pop up and sitespecific cinema exhibition in the UK with a focus on Scotland tracing their links with historical forms of non theatrical exhibition such as public hall cinema and fairground bioscopes Through archival research observation and interviews with film exhibitors and programmers the book explores how exhibitors create ephemeral social spaces how they negotiate the various uses and configurations of films and venues and how they reinvent cinemagoing from its margins
