**The Death of Treaty Supremacy** David Sloss, 2016 Presentation de l diteur This book provides the first detailed history of the Constitution s treaty supremacy rule It describes a process of invisible constitutional change The treaty supremacy rule was a bedrock principle of constitutional law for more than 150 years It provided that treaties are supreme over state law and that courts have a constitutional duty to apply treaties that conflict with state laws The rule ensured that state governments did not violate U S treaty obligations without authorization from the federal political branches In 1945 the United States ratified the UN Charter which obligates nations to promote human rights for all without distinction as to race In 1950 a California court applied the Charters human rights provisions along with the traditional supremacy rule to invalidate a state law that discriminated against Japanese nationals The implications were shocking the decision implied that the United States had abrogated Jim Crow laws throughout the South by ratifying the UN Charter Conservatives reacted by lobbying for a constitutional amendment known as the Bricker Amendment to abolish the treaty supremacy rule The amendment never passed but Bricker s supporters achieved their goals through de facto constitutional change Before 1945 the treaty supremacy rule was a mandatory constitutional rule that applied to all treaties The de facto Bricker Amendment converted the rule into an optional rule that applies only to self executing treaties Under the modern rule state governments are allowed to violate national treaty obligations including international human rights obligations that are embodied in non self executing treaties
