narratives are thus needed to discredit and deconstruct the narratives on which hate speech is based Alternative narratives are also needed to reinforce positive values and perspectives which support human rights and democratic citizenship such as solidarity respect for diversity freedom and equality Young people need to occupy online public space with positive narratives based on hope and love This manual presents communicative and educational approaches and tools for youth and other human rights activists to develop their own counter and alternative narratives to hate speech It is designed for working with young people from the age of 13 and is based on the principles of human rights education and youth participation Anyone can take action against speech By providing insights into hate speech and human rights and a methodology for producing counter narratives We Can makes that action easier more effective and positive The Council of Europe launched the No Hate Speech Movement campaign to mobilise young people for human rights online and to combat hate speech Education plays a central role in the campaign This manual complements Bookmarks A manual for combating hate speech online through human rights education also published by the Council of Europe
