The human history has many white links throughout its genesis phases throughout its evolutionary and devolutionary periods and throughout its controversial becoming and fulfillments One of this high dramatic controversial field is the persistence overall in Western Hemisphere of the concept of Race within the Specie Sapiens Genus Homo Hominid Family Order Primate Class Mammalia Phylum Vertebrata Kingdom Animalia despite of anthropological and genetically advancements in a scientific argumentative way of the Species Sapiens without different Races within Even if the World s Politics and the World s Media are still stubborn in presenting and defending the idea of different Races within our unique Species Sapiens the biologic realities with scientific proofs are beyond of any doubt in favor of the Sapiens Species without different Races within by putting thus aside a class of political and social concepts as race and racist Rasse und Rassismus with subsequent concept o logical developments of Pro rassismus and Anti rassismus Sapientologist *Battlefield UpSapiens* Augustin Ostace,2018-09-28 Could be set the spirit of Sapiens in motion and emotion to achieve another level of Sapiens as UP SAPIENS By re thinking another symbiosis between the enlarged of the horizon of the evolution since Primate Order Hominid Family Genus Homo and the profundity of Sapiens in its ongoing spirit of abstractness spirit of creativity spirit of reason spirit of the freedom through self consciousness all of them leading towards a possible UP SAPIENS In this way UP SAPIENS could include a triad of becoming out of the classical Sapiens namely Bionics Sapiens the man of implanted organs Robotics Sapiens the man of digital technology and Cloned Sapiens by cloning the sameness with improvement in prolonged longevity in working ability working productivity working creativity Thus the era of Becoming into Sapiens means a fierce battlefield between the classic of science technology history or anthropology towards UP SAPIENS in its derivatives as SAPIENTISMUS SAPIENTOLOGISMUS and POSTSAPIENTISMUS Sapientologist *UNIVERSUM ARCHE* Augustin Ostace,2018-10-15 Dedicated to the Universe itself as the Greatest of all the Greatest and the Smallest of all the Smallest within of the all Visible and of the all Invisible of all kind of Spatiality and of Temporality of all sort of Causality and of all forms of Matter Black Matter and of possible Anti Matter both for human in detectable and non detectable ways of all forms of Energy and Black Energy perceivable and non perceivable for human of Gravitation and possible of Anti Gravitation and of Number Arithmos as perhaps the greatest truth of the whole Universe and of all Physical and Chemical events and processes and of Metaphysical phenomena herein Theoretical Cosmologist **Constitution of European Union - TEN** Augustin Ostace,2021-05-03 We are under pressure in rethinking and unthinking of the whole of the European Union history after big waves of union s earthquakes by mentioning here the big financial crisis between 2008 2010 or Brexit of Great Britain an embittered fought inside of the European Union between the years 2016 and the present 2020 It is not mentioned here the waves of migrants in

the last ten years towards European Union through which a world of social pathology is accompanied and enhanced by a dramatic pandemic s world of biologic pathology this worst issues of viral disease out breaking in the year 2020 We will remake another configuration of the initial CONSTITUTION OF EUROPE written and published with about 15 years ago resembling a parallel dialectical becoming between a finisher and a re finisher in constitution or between an influencer and re influencer in social sciences Terminology of different constitutions will be different in their substance and their semantics reflecting the difference in temporality and creativity of the author but the basic principles of ethics and morality are into the both constitutions the sameness If European Union needs a constitution then European Union must know the history of Europe European Union must know the inhabitants the native the people and citizens of Europe European Union must know and appreciate the science and technology of Europe the same European Union must have empathy over the art and religions of Europe over the geography and demography of Europe since the oldest times of Upper Paleolithic of Neolithic of Antiquity of Middle Age of Renaissance of Enlightenment of Modern Times and of present Third Millennium all in detail all in reality all in morality in logos of proportionality and rationality More than that our Constitution of European Union is desired to be and to become a pilot project in searching and researching in anthropo sapientology a vector of axiological and epistemological substance in knowledge and discoveries of our Species and of our Genus Homo Anthropos Constitutionalist of European Union **KUNG-FU MASTER** Augustin Ostace,2018-07-27 In order to know myself better gnothi seauton I have to descend into the strongholds of meditation of pondering and of wise silencing In order to know myself better gnothi seauton I have to know what is uncertain around me and inside me In order to know myself better gnothi seauton I have to know what is unknown around me and inside of me Ultimately in order to know ourself better of what is known of what is uncertain and of what is unknown must be the duty triad in every school in every college or university of all those who are trying the ontological jump in our Species still called Sapiens Encylopaedist Archetype & Sapientosophy Augustin Ostace,2018-09-24 Could one know the totality ancestors of our Species Sapiens as accumulated experiences through Sapiens itself coming from Genus Homo Hominid Family Order Primate Class Mammals Phylum Vertebrata Kingdom Animals More than sure the answer is not just by taking into account that this chain of evolution has an average age of ca about 500 millions years of different eras and periods and the un numerable ascendant species or genus or families had been already in extinct phase of paleontology of the earth But through a theoretical process of the psychoanalytic introversion into upright posture of the Hominid Family Genus Homo and Species Sapiens it is tried a confrontation not only with the supposed subconscious of this triad bipedic ancestor of present human but a re sensing of myth o poiesis enchained into the three interrelated evolutionary groups perhaps the main responsible for our qualities for our fragilities for our vulnerabilities and for our creativities This metaphor for a Species individuation with a huge emptiness around us united in contraries transcending ourselves towards unknown resembles a creative pathology in written into human who is the carrier of duality
