Astrology in a Nutshell C. H. Webber,2023-12-31 The contents of this book are of great value in educating the human mind especially in its appreciation of the fact that Order is Heaven s First Law This may not be realized in a single reading We advise repeated readings of the whole book before attempting to practice its lessons Each reading will throw a new flash of light upon minds unfamiliar with Astrology Superficial readers might judge the lessons herein given to be tautological but the author deems these repetitions necessary to impress certain important facts upon the student Repetitions in teaching are ipsoygychofactors The teacher who never alludes to a matter but once would be apt to make a superficial impression The Wonder Wheel herein presented is an ingenious compilation of Astrologic lore created by the Author for his own convenience many years after he had become adept in the Science He found that he often needed an Astrologic lay out of the heavens before his eyes when working out his problems In using it he soon learned that he could dispense with the mathematical sums for knowing the motion of the planets as per page 28 he could trace their position from point to point about the circle with his eye The Wheel reveals at a glance the Zodiacal Signs their names numbers and Horoscopal correspondences the degrees of Zodiac corresponding with yearly calendar parts of the body and the human characters ruled by the signs their lordships the decanates and terms of the signs and their rulers the clock hours of the day by which Hscooropes may be calculated the planetary hours and week day rulers aspects and angles from the several signs Years of Life circle differences in time at various parts of the world the cignificances of houses of the Horoscope the elemental nature of signs and houses the localities of prominent fixed stars etc The Author discovered by use of this Wheel that it answered the purposes of a globe or a map and by which any and every problem in Astronomy and Astrology could be more quickly approximated than by any other inexpensive method known He was induced by his friends to make it public and he has done so in various forms so that the Wonder Wheel and his Tabula Magus are now known in every civilized portion of the globe They have been found to be Wonderful Demostrator of Divine Law in Biblical Spiritual Theosophic Astrologic or other systems of Ancient or Modern lore and whatever a person s religious faith it may be upheld by lessons drawn from the Wonder Wheel Teachers Lecturers

Writers and Students have already drawn many illustrations from it in their particular lines of work Even the children have found out several simple games of amusement by use of the Wheel with checkers buttons or dice It is well adapted in Kindergarten schools to various lines of attention and all scholars may discover new truths in its use
