Feminist Nightmares Susan Ostrov Weisser,Jennifer Fleischner,1994-10 Though all women are women no woman is

only a woman wrote Elizabeth Spelman in *The Inessential Woman* Gone are the days when feminism translated simply into the advocacy of equality for women Women's interests are not always aligned race class and sexuality complicate the equation In recent years feminist ideologies have become increasingly diverse Today one feminist's most ardent political opponent may well be another feminist As feminism grows increasingly diverse the time has come to ask a painful and frequently avoided question what does it mean for women to oppress women This pathbreaking provocative anthology addresses this troublesome dilemma from various feminist perspectives offering an interdisciplinary collection of writings that widens our understanding of oppression to take into account women who are at odds The book examines the social political and psychological ramifications of this phenomenon as evidenced in a range of texts from women's antislavery writing to women's anti-abortion writing from mother-daughter incest stories to maternal surrogacy narratives from the Bible to the popular romance novel from Jane Austen to Alice Walker The value of the volume is perhaps best summed up by an early response to the idea This is a book that should never be written feminists should concentrate on how men oppress women Ironically it is precisely because the subject triggers such responses the authors argue that a volume such as *Feminist Nightmares* has become a necessity *Provocations* Susan Bordo, 2015-03-21 The first collection of its kind *Provocations: A Transnational Reader in the History of Feminist Thought* is historically organized and transnational in scope highlighting key ideas transformative moments and feminist conversations across national and cultural borders Emphasizing feminist cross-talk transnational collaborations and influences and cultural differences in context this anthology heralds a new approach to studying feminist history *Provocations* includes engaging historically significant primary sources by writers of many nationalities in numerous genres from political manifestos to theoretical and cultural analysis to poetry and fiction These texts range from those of classical antiquity to others composed during the Arab Spring and represent Asia the Middle East Latin America Western Europe and the United States Each section begins with an introductory essay that presents central ideas and explores connections among readings placing them in historical national and intellectual contexts and concluding with questions for discussion and reflection
