Historical Modules for the Teaching and Learning of Mathematics

Victor J. Katz, Karen Dee Michalowicz, 2020-03-02. Contains 11 modules consist of a number of activities designed to demonstrate the use of the history of mathematics in the teaching of mathematics. Objectives of the Modules: To enable students to develop a much richer understanding of mathematics and its applications by viewing the same phenomena from multiple mathematical perspectives. To enable students to understand the historical background and connections among historical ideas leading to the development of mathematics. To enable students to see how mathematical concepts evolved over periods of time. To provide students with opportunities to apply their knowledge of mathematics to various concrete situations and problems in a historical context. To develop in students an appreciation of the history connected with the development of different mathematical concepts. To enable students to recognize and use connections among mathematical ideas. To enable students to understand how mathematical ideas interconnect and build on one another to produce a coherent whole. To lead students to recognize and apply mathematics in contexts outside of mathematics. Publisher: *Authentic Learning Activities: Measurement* Brendan Kelly, 2000
