Gulf Uniform Supply, Inc. (GUS), a merchandising business, is organized as a corporation. The business sells a complete line of uniforms for a variety of businesses and organizations, including schools, medical offices, and retail stores. GUS is located in an open-area shopping center and is open for business Monday through Saturday. A monthly rent is paid for its store space in the shopping center. GUS accepts credit sales for approved customers and credit cards from individual customers.

**ATTENTION:** The steps in this problem will vary from those in your text. Although the steps occur in a different order, the actions are the same. Therefore, the transactions will ultimately be journalized and posted to the ledgers properly.

*Journalize the transactions completed during December of the current year. GUS offers sales terms of 2/10, n/30. The sales tax rate is 6%. In the list of transactions, source documents are abbreviated as follows: check, C; memorandum, M; purchase invoice, P; receipt, R; sales invoice, S; terminal summary, TS; debit memorandum, DM; credit memorandum, CM. When journalizing, no P is required in the Purch. No. column of the purchases journal, no S is required in the Sale No. column of the sales journal, and no C is required in the Ch. No. column of the cash payments journal.*

Frank Epling, W. David Pierce, 2013-06-17 This volume provides researchers and clinicians with an insight into recent developments in activity anorexia Much of the basic information on the topic has come from animal literature the theory of activity anorexia is built on an animal model of self starvation rats placed on a single daily feeding run more and more over days stop eating and die of starvation Additionally experiments that for ethical or practical reasons could not be done with humans may be conducted with other animals The animal research is extending the understanding of biologically based reward mechanisms that regulate eating and exercise environment behavior interactions that affect anorexia and the biochemical changes that accompany physical activity and starvation Increasingly however the impact of physical activity on human anorexia is being directly investigated eight out of fourteen research chapters in this volume are based on human research Some researchers are interested in the impact of hyperactivity and caloric restriction on human reproductive function Other authors are investigating physically active subgroups of people considered to be at risk for anorexia Finally several clinician researchers suggest how physical activity and extreme dieting interact for anorexia nervosa patients Chapter authors were asked to present their views independent of the editors argument that when it is present physical activity is central to anorexia Many of the contributors disagree with

the editors about the details of activity anorexia A few suggest that excessive physical activity is either incidental to or an epiphenomenon of anorexia Most authors are however in accord with the view that physical activity reduces food consumption which further drives up activity that results in even less caloric intake No matter what their perspective all contributors agree that hyperactivity frequently accompanies self starvation in humans and other animals The end result is a lively book that provides a source of ideas for both researchers and practitioners
