The Purloined Punch Line Jerry Aline Flieger, 1991 **Speeches and Proceedings of the 20th CPSU Congress** Kommunisticheskaiia partiia Sovetskogo Soiuza. S"ezd, 1956 The Logic of Invention Roy Wagner, 2019-02-15 In this long awaited sequel to *The Invention of Culture* Roy Wagner tackles the logic and motives that underlie cultural invention Could there be a single logical factor that makes the invention of the distinction between self and other possible much as specific human genes allow for language Wagner explores what he calls the reciprocity of perspectives through a journey between Euro American bodies of knowledge and his in depth knowledge of Melanesian modes of thought This logic grounds variants of the subject object transformation as Wagner works through examples such as the figure ground reversal in Gestalt psychology Lacan s theory of the mirror stage formation of the Ego and even the self recursive structure of the aphorism and the joke Juxtaposing Wittgenstein s and Leibniz s philosophy with Melanesian social logic Wagner explores the cosmological dimensions of the ways in which different societies develop models of self and the subject object distinction The result is a philosophical tour de force by one of anthropology s greatest mavericks The Transformative Philosophical Dialogue Shai Tubali, 2023-09-25 This book explores dialogue as a transformative form of philosophical practice by unveiling the method behind the unique dialogue developed by mystic and thinker Jiddu Krishnamurti 1895 1986 While Krishnamurti himself generally rejected the cultivation of systems and techniques Shai Tubali argues that there are easily identifiable patterns through which Krishnamurti strove to realize his dialogical aims For this reason he refers to this method whose existence has evaded Krishnamurti s followers and scholars alike as the Krishnamurti dialogue He suggests that these discursive patterns serve to broaden our understanding of the possibilities of philosophical and religious dialogues and further illuminate established forms of dynamic discourse such as the Socratic method Inspired by Pierre Hadot s revolutionary reading of the classical Greco Roman texts the author centers his attention on Plato s Socratic dialogues and the guru disciple conversations in the Hindu Upanishads which fall within the scope of what may be termed the transformative dialogue dialogues that have been written with the intention of bringing about a transformation in the mind of the interlocutor and reader and reorienting their way of life This text appeals to students as well as researchers and suggests that the Krishnamurti dialogue is not only a continuation and development of the transformative dialogue but that it also amalgamates ingredients of classical Western philosophy and South Asian mysticism Moreover this type of dialogue encourages readers to revisit the lost practice of transformative philosophy in that it reveals new pathways of philosophical and religious inquiry that bear thought provoking practical implications 20th CPSU Congress: Speeches by major soviet leaders Kommunisticheskaiia partiia Sovetskogo Soiuza, 1956 **John McDowell** Tim Thornton, 2019-05-30 John McDowell is one of the most widely read philosophers in recent years His engagement with a philosophy of language mind and ethics and with philosophers ranging from Aristotle and Wittgenstein to Hegel and Gadamer make him one of the most original and

outstanding philosophical thinkers of the post war period In this clear and engaging book Tim Thornton introduces and examines the full range of McDowell s thought After a helpful introduction setting out McDowell s general view of philosophy Thornton introduces and explains the following topics Wittgenstein on philosophy normativity and understanding value judgements theories of meaning and sense singular thought and Cartesianism perceptual experience and knowledge disjunctivism and openness to the world Mind and World the content of perceptual experience and idealism action and the debate with Hubert Dreyfus on conceptual content and skilled coping This second edition has been significantly revised and expanded to include new sections on McDowell s work on disjunctivism and criticisms of it a new chapter on McDowell s modification of his account of perceptual experience and conceptual content and criticisms by Charles Travis and a new chapter on action and McDowell s engagement with Hubert Dreyfus and the debate concerning skilled coping and mindedness The addition of a glossary and suggestions for further reading makes John McDowell second edition essential reading for those studying McDowell philosophy of language philosophy of mind ethics and epistemology as well as for students of the recent history of analytical philosophy generally *William Wilde and the Necrosed Davis*
