[Retelling Stories, Framing Culture](#) John Stephens, Robyn McCallum, 2013-01-11 What happens to traditional stories when they are retold in another time and cultural context and for a different audience? This first of its kind study discusses Bible stories, classical myths, heroic legends, Arthurian romances, Robin Hood lore, folk tales, oriental tales, and other stories derived from European cultures. One chapter is devoted to various retellings of classics from Shakespeare to *Wind in the Willows*. The authors offer a general theory of what motivates the retelling of stories and how stories express the aspirations of a society. An important function of stories is to introduce children to a cultural heritage and to transmit a body of shared allusions and experiences that expresses a society's central values and assumptions. However, the cultural heritage may be modified through a pervasive tendency of retellings to produce socially conservative outcomes because of ethnocentric androcentric and class-based assumptions in the source stories that persist into retellings. Therefore, some stories such as classical myths are particularly resistant to feminist reinterpretations, for example, while other types such as folktales are more malleable. In examining such possibilities, the book evaluates the processes of interpretation apparent in retellings. Index included. [The Role of Mythology in Religion: A Simple Guide to Big Ideas](#) Nova Martian, 2025-05-12 In *The Role of Mythology in Religion: A Simple Guide to Big Ideas*, readers are invited on an accessible and thought-provoking journey through the intricate relationship between myth and faith. This illuminating guide unpacks the essential concepts of both mythology and religion, tracing their shared origins and addressing common misconceptions. Readers will discover how foundational myths not only explain the mysteries of existence but also forge the customs, morals, and collective identities that have shaped societies across time. The book expertly explores universal mythic themes such as creation, the hero's journey, and life after death, while examining the symbolic language and ritual practices that bring these stories to life in major world religions and indigenous traditions alike. From the sacred narratives of ancient Egypt and the epics of Hinduism to the mythic reinterpretations found in contemporary spiritual movements, each chapter reveals how storytelling forms the backbone of both personal belief and communal worship. Themes of authority, morality, and community are addressed alongside more contemporary topics, including the interplay between myth and science and the emergence of new secular myths in modern culture. With a clear and engaging style, the guide also presents critical frameworks for interpreting and analyzing myths, offering perspectives from comparative studies, feminist scholarship, and psychological archetypes. As it examines how myths persist, adapt, and underpin social change, the

book underscores their enduring role in helping humanity grapple with the deepest questions of existence Perfect for curious readers or students seeking a comprehensive introduction this guide affirms that myth far from being obsolete remains a living evolving force at the heart of religious experience and human meaning

Modern Indian Literature as Cosmopolis Didier Coste, 2024-10-09 This book redefines modern Indian literature from a cosmopolitan comparative perspective inclusive of literature in English from India and the diaspora in native languages and works by non Indians It shows how since the mid 19th century Indian literary modernity pursued the conjunction of the sensuous and ethical spiritual that characterized its three traditions Sanskrit Persian and folk culture while the encounter both receptive and oppositional with the West vastly expanded the Indian literary sphere Aesthetics and ethics are not antithetical in the Indian cultural space but the quest for an exclusive Indian identity versus universalist approaches offsets concerns for social justice as well as enjoyable embodied communication The literary constellation in many languages now formed in and around India can be better apprehended as a virtual Cosmopolis a commonwealth of elaborate emotions The versatile figure of Hanuman metaphorically flies across this Ocean of Stories to make us discover new worlds of experience
