**Romantic Cyborgs** Mark Coeckelbergh, 2017-02-24 An account of the complex relationship between technology and romanticism that links nineteenth century monsters automata and mesmerism with twenty first century technology's magic devices and romantic cyborgs Romanticism and technology are widely assumed to be opposed to each other Romanticism understood as a reaction against rationalism and objectivity is perhaps the last thing users and developers of information and communication technology ICT think about when they engage with computer programs and electronic devices And yet as Mark Coeckelbergh argues in this book this way of thinking about technology is itself shaped by romanticism and obscures a better and deeper understanding of our relationship to technology Coeckelbergh describes the complex relationship between technology and romanticism that links nineteenth century monsters automata and mesmerism with twenty first century technology's magic devices and romantic cyborgs Coeckelbergh argues that current uses of ICT can be interpreted as attempting a marriage of Enlightenment rationalism and romanticism He describes the romantic dialectic when this new kind of material romanticism particularly in the form of the cyborg as romantic figure seems to turn into its opposite He shows that both material romanticism and the objections to it are still part of modern thinking and part of the romantic dialectic Reflecting on what he calls the end of the machine Coeckelbergh argues that to achieve a more profound critique of contemporary technologies and culture we need to explore not only different ways of thinking but also different technologies and that to accomplish the former we require the latter *Romance* Dana Percec, 2012-03-15 *Romance* The History of a Genre is a collection of essays devoted to the highly popular and no less controversial genre of romance A genre often disregarded for its stereotypical language shallow characters and predictable plots dismissed as women's fiction accused of conventionalism romance is a genre which after ups and downs in its millennial history is now holding a leading position on the international bookselling market This achievement has also been possible with the endorsement of contemporary media and modern technology cinema television the Internet etc Much has been written in both traditional and more recent literary theory about the origins and evolution of the early forms of romance from the classical Antiquity through the Middle Ages and into the Renaissance and early modernity in Western Europe A corpus which is becoming more and more substantial today is already available about the gendered status of contemporary romance both in terms of the writing ethos and in

terms of reader response with theories coming from the combined areas of feminism social sciences and psychoanalysis The aim of the present volume is that of noting the fluid character of the genre with the great number of subcategories mixed and hybrid bringing evidence to the polymorphous nature of contemporary popular culture This book proposes in four parts and twelve chapters a fascinating and multifaceted journey into the history substance and geography of romance From its origins to the latest developments from its subgenres to its features from print to film from television to Facebook romance comes in various shapes and colours which the reader can fully explore The journey in the world of romance takes the reader from familiar corners to less familiar ones from North America Great Britain Romania or Turkey to India or South Africa The numerous approaches to romance generate diverse data varied analytical frameworks and interesting fresh and solidly grounded findings **SEAL's Promise** Sharon Hamilton, 2017-12-05 SEAL's Promise Bad Boys of SEAL Team 3 Book 1
