Offering a variety of critical approaches to late eighteenth and nineteenth century Gothic literature this collection provides a transnational view of the emergence and flowering of the Gothic The essays expand on now well known approaches to the Gothic such as those that concentrate exclusively on race gender or nation by focusing on international issues religious traditions social reform economic and financial pitfalls manifest destiny and expansion changing concepts of nationhood and destabilizing moments of empire building By examining a wide array of Gothic texts including novels drama and poetry the contributors present the Gothic not as a peripheral marginal genre but as a central mode of literary exchange in an ever expanding global context Thus the traditional conventions of the Gothic such as those associated with Ann Radcliffe and Monk Lewis are read alongside unexpected Gothic formulations and lesser known Gothic authors and texts These include Mary Rowlandson and Bram Stoker Frances and Anthony Trollope Louisa May Alcott Elizabeth Gaskell Theodore Dreiser Rudyard Kipling and Lafcadio Hearn as well as the actors Edmund Kean and George Frederick Cooke Individually and collectively the essays provide a much needed perspective that eschews national borders in order to explore the central role that global and particularly transatlantic exchange played in the development of the Gothic British American Continental Caribbean and Asian Gothic are represented in this collection which seeks to deepen our understanding of the Gothic as not merely a national but a global aesthetic      **A Language Spoken in Tongues: Essays in the Transcultural Gothic** Gord Barentsen, 2020-10-12      **The Transatlantic Circulation of Novels Between Europe and Brazil, 1789-1914** Márcia Abreu, 2017-03-28 This book brings a renewed critical focus to the history of novel writing publishing selling and reading expanding its viewing beyond national territories Relying on primary sources such as advertisements censorship reviews publisher and bookstore catalogues the book examines the paths taken by novels in their shifts between Europe and Brazil investigates the flow of translations in both directions pays attention to the successful novels of the time and analyses the critical response to fiction in both sides of the Atlantic It reveals that neither nineteenth century culture can be properly understood by focusing on a single territory nor literature can be fully perceived by looking only to the texts ignoring their material existence and their place in social and economical practices      **Latin American Literatures in Global Markets**
