An Alternative Labour History Assistant Professor Dario Azzellini, 2015-03-12 The global financial crisis has led to a new shop floor militancy Radical forms of protest and new workers takeovers have sprung up all over the globe In the US Republic Windows and Doors started production under worker control in January 2013 Later that year workers in Greece took over and managed a hotel a hospital a newspaper a TV channel and a factory The dominant revolutionary left has viewed workers control as part of a system necessary during a transition to socialism Yet most socialist and communist parties have neglected to promote workers control as it challenges the centrality of parties and it is in this spirit that trade unions operating through the institutional frameworks of government have held a monopoly over labor history Tracing Marx s writings on the Paris Commune through council communism anarcho syndicalism Italian operaismo and other heretical left currents **An Alternative Labour History** uncovers the practices and intentions of historical and contemporary autonomous workers movements that until now have been largely obscured It shows that by bringing permanence and predictability to their workplaces workers can stabilize their communities through expressions of participatory democracy And as history has repeatedly shown workers have always had the capacity to run their enterprises on their own

edition Societal Impacts of Adoption of Alternative Agricultural Practices Jayne T. MacLean,1992 Going East: Discovering New and Alternative Traditions in Translation Studies Larisa Schippel,Cornelia Zwischenberger,2016-12-23 This volume provides a comprehensive overview of various Eastern European traditions of thought on the subject of translation as well as the discipline of Translation Studies It sheds a light on how these traditions developed how they are related to and how they differ from Western traditions The volume shows nationally framed histories of translation and Translation Studies and presents Eastern European pioneers and trailblazing thinkers in the discipline This collection of articles however also shows that it is at times hard or even impossible to draw the line between theoretical and or scientific thinking and pre theoretical and or pre scientific thinking on translation Furthermore it shows that our discipline s beginnings which are supposedly rooted in Western scholarship may have to be rethought and consequently rewritten Alternative Water Supply Systems Fayyaz Ali Memon,Sarah Ward,2014-10-15 Owing to climate change related uncertainties and anticipated population growth different parts of the developing and the developed world particularly urban areas are experiencing water shortages or flooding and security of fit for purpose supplies is becoming a major issue The emphasis on decentralized alternative water supply systems has increased considerably Most of the information on such systems is either scattered or focuses on large scale reuse with little consideration given to decentralized small to medium scale systems Alternative Water Supply Systems brings together recent research into the available and innovative options and additionally shares experiences from a wide range of contexts from both developed and developing countries Alternative Water Supply Systems covers technical social financial and institutional aspects associated with decentralized alternative water supply systems These include systems for greywater recycling rainwater harvesting recovery of water through condensation and sewer mining A number of case studies from the UK the USA Australia and the developing world are presented to discuss associated environmental and health implications The book provides insights into a range of aspects associated with alternative water supply systems and an evidence base through case studies on potential water savings and trade offs The information organized in the book is aimed at facilitating wider uptake of context specific alternatives at a decentralized scale mainly in urban areas This book is a key reference for postgraduate level students and researchers interested in environmental engineering water resources management urban planning and resource efficiency water demand management building service engineering and sustainable architecture It provides practical insights for water professionals such as systems designers operators and decision makers responsible for planning and delivering sustainable water management in urban areas through the implementation of decentralized water recycling Authors Fayyaz Ali Memon Centre for Water Systems University of Exeter UK and Sarah Ward Centre for Water Systems University of Exeter UK Alternative Farming Systems. Economic Aspects Karl Schneider,1993 **Alternative Iran** Pamela Karimi,2022-09-27 Alternative Iran offers a unique contribution to the field of contemporary art investigating how Iranian artists engage with space and site amid the pressures

of the art market and the state's regulatory regimes. Since the 1980s, political, economic, and intellectual forces have driven Iran's creative class toward increasingly original forms of artmaking not meant for official venues. Instead, these art forms appear in private homes, with trusted audiences, derelict buildings, leftover urban zones, and remote natural sites. While many of these venues operate independently, others are fully sanctioned by the state. Drawing on interviews with over a hundred artists, gallerists, theater experts, musicians, and designers, Pamela Karimi throws into sharp relief the extraordinary art and performance activities that have received little attention outside Iran. Attending to nonconforming curatorial projects, independent guerrilla installations, escapist practices, and tacitly subversive performances, Karimi discloses the push and pull between the art community and the authorities and discusses myriad instances of tentative coalition as opposed to outright partnership or uncompromising resistance. Illustrated with more than 120 full-color images, this book provides entry into unique artistic experiences without catering to voyeuristic curiosity around Iran's often-perceived underground culture.
