Scottish Primary Mathematics Group

A red circular graphic with a gradient, appearing as a stylized arrow or a partial circle, located to the right of the text 'Scottish Primary Mathematics Group'.

2 Digit Divisor Lesson Plans:

Japanese Lesson Study in Mathematics Masami Isoda, 2007 In Before It's Too Late A Report to the Nation from the National Commission on Mathematics and Science Teaching for the 21st Century 2000 in the US the authors quote from James Stigler's conclusions from various videotape research studies of mathematics teaching The key to long term improvement in teaching is to figure out how to generate, accumulate and share professional knowledge Japanese Lesson Study has proved to be one successful means This book supports the growing movement of lesson study to improve the quality of mathematics education from the original viewpoints of Japanese educators who have been engaging in lesson study in mathematics for professional development and curriculum implementation This book also illustrates several projects related to lesson study in other countries

The Complete Book of Multiplication and Division, Gr. 4-6, eBook, 2004-04-07

The Complete Book of Multiplication and Division, Gr. 2-3, eBook, 2004-04-07

Math Phonics - Division Marilyn B. Hein, 1997-03-01 In just minutes a day students can master math facts with this specially designed program Using rules, patterns and memory tools similar to those used in language arts Math Phonics™ is great for introducing concepts or providing alternative techniques

New Heinemann Maths Yr6, Organising and Planning Guide Scottish Primary Mathematics Group, 2002 New Heinemann Maths offers interactive whole class teaching with structured development of mental calculation within the Framework It covers planning and teaching, pupil material structure and progression support for more able children and easy to manage assessment

Studying Classroom Teaching as a Medium for Professional Development National Research Council, Policy and Global Affairs, Board on International Scientific Organizations, U.S. National Commission on Mathematics Instruction, Division of Behavioral and Social Sciences and Education, Center for Education, Mathematical Sciences Education Board, 2002-08-09 The Mathematical Sciences Education Board (MSEB) and the U.S. National Commission on Mathematics Instruction (USNCMI) took advantage of a unique opportunity to bring educators together In August 2000 following the Ninth International Congress on Mathematics Education (ICME 9) in Makuhari, Japan MSEB and USNCMI capitalized on the presence of mathematics educators in attendance from the United States and Japan by holding a two and a half day workshop on the professional development of mathematics teachers This workshop used the expertise of the participants from the two countries to develop a better, more flexible and more useful understanding of the knowledge that is needed to teach well and how to help teachers to obtain this knowledge A major focus of the workshop was to discuss teachers' opportunities in both societies using teaching practice as a medium for professional development Another focus of the workshop addressed practice by considering the records of teaching including videos of classroom lessons and cases describing teachers and their work These proceedings reflect the activities and discussion of the workshop using both print and video to enable others to share in their experience

New Heinemann Maths Year 5, Organising and Planning Guide Scottish Primary Mathematics Group, 2001 NHM Organising and Planning Guide is an

excellent teacher resource It gives you all the support you need to implement the programme and plan your lessons **The Construction Zone** Denis Newman, Peg Griffin, Michael Cole, 1989-04-28 In its description of several years of painstaking classroom observations and carefully crafted experimental interventions the construction zone makes clear the cleavage lines between the everyday requirements of classroom teaching and the practice of experimental psychologists The best intentions of researchers to improve education are often undermined by such differences The construction zone is the shared psychological space within which teachers construct environments for their students intellectual development and students construct deeper understandings of the cultural heritage embodied in the curriculum The core of the book is a set of analyses of children's developmental changes during classroom lessons and individual tutorials designed to teach basic concepts in such diverse areas as natural science social studies and arithmetic Fusing techniques currently in wide use in microsociology experimental psychology and ethnographic studies of the classroom the authors offer a compelling vision of intellectual development as a process of joint constructive interaction mediated by cultural artifacts Their approach makes it possible to retain the strength of a developmental perspective which treats intellectual change as a constructive process in the spirit of Piaget while making it clear that developmental change is simultaneously a social process of cultural transformation as emphasized by Vygotsky and his students **Specific Skills: Division Facts Tips & Tricks, Grades 3 - 4** Debra Olson Pressnall, 2010-01-04 Introduce students especially struggling learners to the concept of division with fun activities and games that will help them more easily understand and memorize facts Included are a systematic introduction of division facts through the 10s family skill building practice pages for quick recall of quotients easy to play large group and partner games literature connections and Web sites to extend learning and pretest posttest assessment *Houghton Mifflin Math Central* Laurie Boswell, Patsy F. Kanter, 1999
