Old Age in Ancient Judaism, Early Christianity, and Their Contexts Albertina Oegema, Seth A. Bledsoe, 2025-08-08 The collection of chapters in this volume explores the significance of old age for Jews and Christians as well as Greeks and Romans in antiquity By examining a diverse range of sources the authors in this volume

elaborate on the manifold ways that old age functioned as a social discourse in ancient Jewish Christian Greek and Roman contexts The discussions herein demonstrate how perceptions of old age were closely intertwined with notions of authority and wisdom gender and social dynamics social and familial anxieties and the body and disability They show that conceptualizations of old age are far more prevalent and significant to ancient social and political structures rhetorical discourse and religious imagination than one might expect By including studies on old age in different religious and cultural contexts the volume highlights the commonalities as well as the many differences that existed among various communities in antiquity This volume is of interest for students and scholars of religion particularly for those working on Jews Christians Greeks and Romans in the ancient Mediterranean as well as scholars in classical studies and ancient history It is also a valuable resource for gerontologists who wish to explore the historical background of present day notions of old age

also detect a early separation of Jewish and Christian communities in Rome In the second century several prominent philosophical teachers came to Rome and taught the Christian message from their respective viewpoints To these belong Marcion Valentinus Justin Martyr and Tatian The diverse interpretations of the Christian message resulted in the formation of different communities e g the Marcionites the Valentinians and the main church to which apparently Justin belonged The book also examines the archaeological remains of the early Christians Although the evidence is sparse some things can be said about the burial places of Peter and Paul and about the so called house churches of early Christians Taken together the articles in this volume will advance the discussion about Christianity in Rome in the first three centuries

Brattston,2020-10-13 This book deals with questions or problems encountered in the Bible where answers can be found in the ante Nicene fathers The fathers were uniquely qualified by being close in time and culture to Christ himself when his unwritten teachings and Scripture interpretations and those of the apostles were still fresh in Christian memory It is designed for sincere readers of the Bible who may from time to time be puzzled by the occasional passage which seems out of step with the rest of the Scriptures or our usual impression of Christian teaching This work is written for individual and group Bible students without advanced theological qualifications rather than the intellectual market It is written for use in Bible studies in local congregations or church history classes especially in sessions when the pastor or teacher is unable to attend Bible Problems Solved by Early Christians is different from almost all other works and ministries which give solutions to problems or questions because the answers in the book come not from a modern day comparison of different verses within the Bible itself or from the interpretations of any particular religious denomination but from Christian writers who lived in the first centuries after Jesus
