Uzir Hossain Uzir,Profession Dr. Abu Bakar Abdul Hamid,Dr. Ts. Dr. Ahmad Shaharudin Abdul Latiff,Israaq Jerin,2021-05-06 A brand is a valuable asset and loyalty to a particular brand is the source of revenue and profitability of the business Brand loyalty is significant for the business growth and expansion of companies in the electronics sector A populated country Bangladesh has a substantial expenditure on electronic appliances and the demand for these household items increases over the period however customers are not always loyal to a particular brand Marketing literature shows that customer satisfaction and brand confidence directly affect brand loyalty and brand trust mediates their relationship Due to the technological advance of social media technology has an essential role in the customer s decision to buy household appliances The existing literature has not focused on this massive demand for electronic appliances customer satisfaction loyalty trust and social media s significant role in consumer buying behavior The book shoed the investigation of the effect of customer satisfaction and brand trust of electronic home appliances on brand

loyalty and the mediating role of brand trust in customer satisfaction and trust relationship The study also examined the extent to which customers believe social media information influences them The study gathered data from 523 Bangladeshi respondents from Dhaka by conducting a survey The data were analyzed with SPSS and CB SEM AMOS for the hypothesis test The findings revealed that customer satisfaction and brand trust significantly impact brand loyalty and social media moderates those significant relationships The result of the study contributed to the expectancy disconfirmation theory trust commitment theory brand loyalty theory and theory of reasoned action by presenting empirically based insight into customer satisfaction brand trust and brand loyalty constructs in electronic home appliances in Bangladesh In addition the results provided a practical insight into marketing and brand management They suggested the practicing managers in developing product quality with customer preference building trust through maintaining brand image and creating awareness among the customers and considering the significance of social media and its usage The research used probabilistic sampling techniques both rural and urban customers only a single home appliance and PLS SEM statistical tool for analysis Future researchers could focus and include other variables such as price or advertising consider loyalty separately and use both urban and rural customers to have better predictions Predictive HR Analytics Kirsten Edwards, Dr Martin R.

Edwards, 2016-03-03 Where other functions of an organization deal in profits sales growth forecasts and strategic planning the HR function is responsible for employee well being engagement and motivation Such concerns do not immediately conjure up images of analytical know how despite the fact that in reality the management of such things often requires a lot of measurement and technical skill Predictive HR Analytics provides a clear accessible framework with which to understand and work with HR analytics at an advanced level taking HR professionals through examples of particular predictive models so they can develop effective HR strategies based on evidence Predictive HR Analytics will show step by step using simple terms how to carry out analysis using the statistical package SPSS and interpret the results helping to communicate the potential of HR analytics and get the most out of the HR function whether carrying out the analysis or briefing external consultants The book will help deliver a credible and reliable service to businesses by providing metrics on which executives will be able to make sound business decisions Online supporting resources include data sets for using alongside the book
