Angry Birds Graphing:

Share Engage Educate Vinesh Chandra,2019-12-09 There is no doubt that our world is becoming increasingly more connected through digital technologies For meaningful participation in this environment we need to be digitally literate yet there are many children in developing countries who have yet to touch a computer because of social disadvantage For these children schools are the only place where they can build this capacity Regrettably many schools in these communities are under resourced They do not have sufficient and relevant library books let alone digital resources As a consequence teaching and learning strategies have remained unchanged for decades The field of critical pedagogy evolved through the initial work of Paulo Freire This theory is underpinned by critical thinking about societal issues followed by action and reflection When citizens are armed with such knowledge and skills they can positively impact on the lives of the underprivileged Critical pedagogy however is still struggling to find its meaningful place particularly in higher education This is largely due to the lack of effective strategies and critical educators Share Engage Educate is an auto ethnography which presents accounts of the initiatives that were undertaken to promote print and digital literacy in rural and remote schools in eight developing countries It highlights the experiences of school leaders teachers university staff and students and globally minded citizens working alongside local communities to enhance the quality of education for over 15 000 children in these schools This book explores how critical pedagogy can unfold in educational spaces through knowledge sharing engaging and in the process educating all stakeholders

Playframes Celia Pearce, 2024-12-17 An exploration of how we know we're playing and what happens when we don't *Playframes* builds on the work of Gregory Bateson and Erving Goffman to take a deep dive into Bateson's primary question How do we know we're playing In this book Celia Pearce addresses this question by building a comprehensive theory of the specific mechanisms that metacommunicate the message this is play This big tent approach covers a broad swath of playframes ranging from theme parks to cosplay board and video games and sports and describes how spatial and temporal frames as well as artifacts such as costumes and uniforms toys and sports equipment let us know when a play activity is underway Pearce teases out distinctions between ritual and play activities including social practices in which they merge or are indistinguishable as well as incidents of frame breach or misalignment where participants' perception of what is going on diverges These principles are illustrated with a series of four topical studies that explore various scenarios in which play and non-play contexts are juxtaposed or blurred These span from delightful fan convention cosplay and simulated and virtual weddings to confusing virtual currency and bitcoin to dangerous Building on recent research the book culminates with an in-depth analysis of the gaming roots of the January 6 Capitol insurrection and argues that playframe breach and deliberate misalignment were the major contributing factors

Passion-Driven Education Connor Boyack, 2016-08-16 Do you need parenting advice on how to inspire your child to love learning Whether you homeschool or send your kids to public or private school this is essential reading for your situation Why Because schooling has become a disaster Your child's interests and uniqueness are disregarded and structured curriculum and standards like Common Core place them on a conveyor belt that treats all children the same This system crushes a child's curiosity Your child deserves better There is a better way one that ensures your child sees learning as a joy and provides you the parent with a much less stressful way to educate and empower your son or daughter In this book Connor Boyack shares the exciting philosophy and empowering day to day steps involved in passion-driven education A child's curiosity and natural desire to learn are like a tiny flame easily extinguished unless it's protected and given fuel This book will help you as a parent both protect that flame of curiosity and supply it with the fuel necessary to make it burn bright throughout your child's life Let's ignite our children's natural love of learning

Five Things Discussed in the Book What's the problem with schools Whether public private or home schooling is structured in a way that has significant negative outcomes for children academically psychologically and emotionally To understand the solutions you first need to review these problems What's your goal Too many parents simply send their children to school out of ritual and expectation without thinking about the end result Caring parents must ponder

the outcomes of education and what they want their children to become Once goals are established we can make a plan I need solutions It s easy to point out problems with schooling It s more important that we review serious and attainable solutions that can help you educate your child and preserve or restore their natural love of learning What are the alternatives If schools are inherently problematic and crush a child s curiosity what can be done We ll review several differing approaches to education that incorporate some of the solutions listed earlier Passion driven education The best way to educate a child is to speak to them in a language they already understand using their personal interests as a hook to make other subjects interesting and relevant We ll review some examples and then give you an action plan
