Why Animal Suffering Matters Andrew Linzey, 2013-11-01 How we treat animals arouses strong emotions Many people are repulsed by photographs of cruelty to animals and respond passionately to how we make animals suffer for food commerce and sport But is this as some argue a purely emotional issue Are there really no rational grounds for opposing our current treatment of animals In *Why Animal Suffering Matters* Andrew Linzey argues

that when analyzed impartially the rational case for extending moral solicitude to all sentient beings is much stronger than many suppose Indeed Linzey shows that many of the justifications for inflicting animal suffering in fact provide grounds for protecting them Because animals the argument goes lack reason or souls or language harming them is not an offense Linzey suggests that just the opposite is true that the inability of animals to give or withhold consent their inability to represent their interests their moral innocence and their relative defenselessness all compel us not to harm them Andrew Linzey further shows that the arguments in favor of three controversial practices hunting with dogs fur farming and commercial sealing cannot withstand rational critique He considers the economic legal and political issues surrounding each of these practices appealing not to our emotions but to our reason and shows that they are rationally unsupportable and morally repugnant In this superbly argued and deeply engaging book Linzey pioneers a new theory about why animal suffering matters maintaining that sentient animals like infants and young children should be accorded a special moral status

People Promoting and People Opposing Animal Rights John M. Kistler, 2002-11-30 What is the difference between animal rights and animal welfare What inspires people to take on the different causes of non human animals How do people vary in their views on the rights of animals Students will be encouraged to think critically as they discover there are no black and white answers to these and other questions This fascinating collection of profiles is written by and about those who are actively involved in the pro con aspects of the animal rights and animal welfare movements Over 35 individual stories written by those who are on the frontlines fighting for what they believe bring the controversies surrounding animal rights and welfare into sharp focus The same interview questions were asked of each participant Readers will enjoy the personal element of these profiles while discovering the similarities and differences among those involved in these movements An introduction to the volume provides students with the definitions and background information they need to clearly understand the entries that follow and to encourage them to question what they read and to draw their own conclusions
