SECTION A – COMPREHENSION

Read the following passage and answer the questions that follow:

Teaching your children not to litter is a valuable life lesson.

I can no longer simply drive past children who drop their chip packets, cold drink cans and, sometimes entire fast-food packaging, as they walk home from school. Something inside me snaps and I tend to stop my car, interrogate them, and demand they pick up after themselves.

"Why did you throw that down in the street, when there's a rubbish bin a metre from where you dropped it?" I yell. The guilty 10-year-old glares at me as though I am insane or dangerous – perhaps I look it?

Curiously, it seems the whole idea of putting discarded wrappers into a bin designed for that purpose is a foreign concept to many of them. When pressed to answer my question, some of the responses have left me flabbergasted. "But I am creating jobs," said one indignant little litter-lout!

And it's not a stab in the dark to conclude that children like him are only doing what children everywhere do best: following the example set by their parents and caregivers in their lives. But attitudes like this are extremely dangerous. According to Alderman Clive Justus, Cape Town's Mayoral Committee Member for Utility Services, there seems to be a growing tolerance by the public, not only of litter, but of those responsible for it. What's more, this attitude is increasingly threatening the city's rating by international tourism organisations as one of the world's most beautiful cities and desirable holiday destinations, as residents continue to dump refuse illegally and indiscriminately fill our outdoor public spaces with litter.

"Children need to develop a sense of responsibility for themselves, others and the world in which they live in order to be contributing members of society," explains Johannesburg – based educational psychologist Melanie Hartgill.

publishing networks which enabled his works to become bestsellers The book draws on sources in foreign languages and previously unseen material including Orwell s lost letters to Teresa Jele ska the Polish translator of Animal Farm The volume significantly broadens our understanding of Orwell s life work and legacy It also contributes to discussions in English literature and comparative literature literary exchanges translation reception and censorship and East European studies

Biomedical Research G.
