Democratic Evaluation and Democracy Donna Podems, 2017-02-01 Democratic evaluation brings a way of thinking about evaluation's role in society and in particular its role in strengthening social justice. Yet the reality of applying it and what happens when it is applied particularly outside the West is unclear. Set in South Africa, a newly formed democracy in Southern Africa, the book affords an in-depth journey that immerses a reader into the realities of evaluation and its relation to democracy. The book starts with the broader introductory chapters that set the scene for more detailed ones which bring thorough insights into national government, local government, and civil societies' experience of evaluation, democratic evaluation, and their understanding of how it contributes to strengthening democracy or not. A teaching case, the book concludes by providing guiding questions that encourage reflection, discussion, and learning that ultimately aims to inform practice and theory.

Continuing Professional Teacher Development in Sub-Saharan Africa Yusuf Sayed, 2019-09-19 Continuing Professional Teacher Development in Sub Saharan Africa explores the prospects that the on going continuous professional development CPD of

teachers working in schools offers for meaningful change particularly towards improving the quality of educational provision for the majority of the continent's children. By reflecting on teacher professional development efforts and their place in broader education reforms, the book highlights the challenges of teacher CPD in these education contexts, contexts strongly shaped by endemic poverty, underdevelopment and social upheaval. The collection draws together examples of innovation and resilience and the valuing of teachers as critical role players enabled and empowered through their ongoing development as education professionals. Drawing together a wealth of experience, the volume identifies the policy and research implications for the future of CPD across the continent, providing important lessons that can be integrated into a post-2015 development agenda for Africa. World Yearbook of Education 2021 Sotiria Grek, Christian Maroy, Antoni Verger, 2020-11-26. Providing a comprehensive introduction to the topic of accountability and datafication in the governance of education, the *World Yearbook of Education 2021* considers global policy dynamics and policy enactment processes. Chapters pay particular attention to the role of international organizations and the private sector in the promotion of performance-based accountability (PBA) in different educational settings and at multiple policy scales. Organized into three sections, chapters cover the global, local construction of accountability and datafication, global discourse and national translations of performance-based accountability policies and enactments, and effects of accountability and datafication, including controversies and critical issues. With carefully chosen international contributions from around the globe, the *World Yearbook of Education 2021* is ideal reading for anyone interested in the future of accountability and datafication in the governance of education. *Henry's Clinical Diagnosis and Management by Laboratory Methods E-Book* Richard A. McPherson, Matthew R. Pincus, 2021-06-09. For more than 100 years, *Henry's Clinical Diagnosis and Management by Laboratory Methods* has been recognized as the premier text in clinical laboratory medicine, widely used by both clinical pathologists and laboratory technicians. Leading experts in each testing discipline clearly explain procedures and how they are used both to formulate clinical diagnoses and to plan patient medical care and long-term management. Employing a multidisciplinary approach, it provides cutting-edge coverage of automation, informatics, molecular diagnostics, proteomics, laboratory management and quality control, emphasizing new testing methodologies throughout. Remains the most comprehensive and authoritative text on every aspect of the clinical laboratory and the scientific foundation and clinical application of today's complete range of laboratory tests. Updates include current hot topics and advances in clinical laboratory practices, including new and extended applications to diagnosis and management. New content covers next-generation mass spectroscopy, MS coagulation testing, next-generation sequencing, NGS transfusion medicine, genetics and cell-free DNA, therapeutic antibodies targeted to tumors and new regulations such as ICD-10 coding for billing and reimbursement. Emphasizes the clinical interpretation of laboratory data to assist the clinician in patient management. Organizes chapters by organ system for quick access and highlights information with full-color illustrations, tables and

diagrams Provides guidance on error detection correction and prevention as well as cost effective test selection Includes a chapter on Toxicology and Therapeutic Drug Monitoring that discusses the necessity of testing for therapeutic drugs that are more frequently being abused by users Enhanced eBook version included with purchase Your enhanced eBook allows you to access all of the text figures and references from the book on a variety of devices Ventures Level 3 Teacher's Edition with Assessment Audio CD/CD-ROM Gretchen Bitterlin,2013-07-12 Ventures 2nd Edition is a six level standards based ESL series for adult education ESL The Ventures 2nd Edition interleaved Level 3 Teacher s Edition includes easy to follow lesson plans for every unit It offers tips and suggestions for addressing common areas of difficulty for students as well as suggested expansion activities for improving learner persistence The Teacher s Edition also explains where to find additional practice in other Ventures components such as the Workbook Online Teacher s Resource Room and Student Arcade Multi skill unit midterm and final tests are found in the back of the Teacher s Edition Also includes an Assessment CD CD ROM which contains audio for each test as well as all the tests in a customizable format ICPMG2014 - Physical Modelling in Geotechnics Christophe Gaudin,David White,2019-01-08 The 8th International Conference on Physical Modelling in Geotechnics ICPMG2014 was organised by the Centre for Offshore Foundation Systems at the University of Western Australia under the auspices of the Technical Committee 104 for Physical Modelling in Geotechnics of the International Society of Soil Mechanics and Geotechnical Engineering This quadrennial conference is the traditional focal point for the physical modelling community of academics scientists and engineers to present and exchange the latest developments on a wide range of physical modelling aspects associated with geotechnical engineering These proceedings together with the seven previous proceedings dating from 1988 present an inestimable collection of the technical and scientific developments and breakthroughs established over the last 25 years These proceedings include 10 keynote lectures from scientific leaders within the physical modelling community and 160 peer reviewed papers from 26 countries They are organised in 14 themes presenting the latest developments in physical modelling technology modelling techniques and sensors through a wide range of soil structure interaction problems including shallow and deep foundations offshore geotechnics dams and embankments excavations and retaining structures and slope stability Fundamental aspects of earthquake engineering geohazards ground reinforcements and improvements and soil properties and behaviour are also covered demonstrating the increasing complexity of modelling arising from state of the art technological developments and increased understanding of similitude principles A special theme on education presents the latest developments in the use of physical modelling techniques for instructing undergraduate and postgraduate students in geotechnical engineering *Accountability in education: meeting our commitments* UNESCO,2017-10-30 The second edition of the Global Education Monitoring Report GEM Report presents the latest evidence on global progress towards the education targets of the UN Sustainable Development Goals With hundreds of millions of people still not going to school and many not achieving minimum skills at school it is clear education
