Gorillas

Orangutans

Gorillas are the largest animal in the primate family. Most gorillas live on mountains in Africa. They do not spend much time in trees. They like to spend most of their time on the ground. Gorillas have big bodies and large heads. Gorillas have brown or black hair all over their bodies. Gorillas have two arms and two legs that they use to walk. Their arms are longer than their legs. Gorillas live with each other in groups called troops. Gorillas like to eat fruit, plants, and insects. When a male gorilla gets older, his back gets silver hair. These are called silverback gorillas. A female gorilla has one baby at a time. The baby rides on the mom's back. The baby will stay with the mom for three years.

Orangutans are primates. They live in forests in Asia. Orangutans spend most of their time in trees. Orangutans have two arms and two legs. Their arms are very long. Their long arms help them climb and swing in trees. Orangutans have red hair. Orangutans like to live alone. They eat fruit, plants, and insects. A female orangutan will have one baby at a time. The baby will hold on to the mom and she will carry it around with her. Once the baby gets older, it can ride on the mom's back. The baby stays with the mom for a long time! Up to eight years!

Jeanne Shay Schumm, 2006-05-04 Weaving together the latest knowledge and best practices for teaching children to read this indispensable text and professional resource provides a complete guide to differentiated instruction for diverse learners. Uniquely integrative, the book places the needs of English language learners and students with disabilities front and center instead of treating them as special topics. Accessible chapters on each of the core components of literacy clearly demonstrate how to link formal and informal assessment to evidence-based instruction. Special features include Research Briefs, Tech Tips, Internet Resources, Reflection and Action Questions, and dozens of reproducible student activities and assessment tools.

Culturally and Socially Responsible Assessment Catherine S. Taylor, Susan Bobbitt Nolen, 2022 This book addresses a problem that affects the work of all educators: how traditional methods of assessment undermine the capacity of schools to serve students with diverse cultural and social backgrounds and identities. Anchored in a commonsense notion of validity, this book explains how current K-12 assessment practices are grounded in the language experiences and values of the dominant White culture. It presents a timely review of research on bias in classroom and large-scale assessments as well as research on how students' level of engagement influences their performances. The author recommends practices that can improve the validity of students' assessment performances by minimizing sources of bias, using culturally responsive assessment tools, and adopting strategies likely to increase students' engagement with assessment tasks. This practical resource provides subject-specific approaches for improving the cultural and social relevance of assessment tools and offers guidance for evaluating existing assessment instruments for bias, language complexity, and accessibility issues. **Book Features:** Research-based recommendations for improving assessment fairness, validity, and cultural/social relevance; Practices that have been shown to improve the effectiveness of classroom assessments in supporting student learning; Concrete examples of how to create culturally relevant assessment tasks that target valued learning goals in language arts, mathematics, social studies, and science classrooms; Appendixes that provide tools educators can use to improve grading practices.
