The Handbook of Anger Management provides therapists and counselors with a comprehensive review of anger and aggression management techniques, presenting specific guidelines to a number of immediately useful methods. Clinical psychotherapist Ronald T. Potter-Efron, Director of the Anger Management Center at First Things First LTD in Eau Claire, Wisconsin, offers straightforward solutions to the complicated problem of anger, detailing core treatment options and intervention methods that meet the needs of individual clients, couples, families, and groups. The Handbook of Anger Management guides therapists through the process of assessing anger in their clients, determining the reasons for and the consequences of anger and aggression. The book examines individual and group modalities using behavioral, cognitive, affective, and existential/spiritual treatment approaches to define anger and anger problems and how they relate to social learning, to examine the relationship between anger and aggression and between anger and domestic violence, and to address the concept of healthy anger. The Handbook of Anger Management examines four major intervention areas that can help lessen anger: the pros and cons of group versus individual counseling; treating angry children, adolescents, and families; how patterns of resentment and hatred are developed; self-forgiveness; five damaging aspects of anger turned inward; the neurological aspects of anger; and much more.
