*Redistributing Health* Thomas Allan McIntosh, Bonnie Jeffery, Nazeem Muhajarine, 2010 What too few people realize is that as Andre Picard writes in his Foreword to *Redistributing Health* social justice or lack thereof has a greater impact on the health of the population than the human genome lifestyle choice and medical treatment The truth is that things like poverty social exclusion lack of meaningful employment and lack of access to education or good housing contribute significantly to ill health in Canada and none of these will be remedied by doctors or hospitals or pill bottles

Mental Health Program,1999\* The National Aboriginal Health Strategy Australia. National Aboriginal Health Strategy Evaluation Committee,Australia. Aboriginal and Torres Strait Islander Commission,Stephen Gordon,1994 This evaluation of the National Aboriginal Health Strategy finds little evidence of its implementation makes recommendations concerning the funding of Aboriginal programs and the role of the Commonwealth and State Territory governments in improving Aboriginal health importance of housing and essential services to Aboriginal health and well being Reaching for Health Gwendolyn Gray Jamieson,2012-01-01 The women s health movement shocked and scandalised when it burst into Australian politics in the early 1970s It cast the light of day onto taboo subjects such as sexual assault abortion and domestic violence provoking outrage and condemnation Some of the services women created for themselves were subjected to police raids sex education material was branded indecent

Moreover women dared to criticise revered institutions such as the medical system Yet for all its perceived radicalism the movement was part of a much broader and relatively conventional international health reform push which included the new public health movement the community health centre movement and in Australia the Aboriginal health movement all of which were critical of the way medical systems had been organised during the 20th century The women who joined the movement came from diverse backgrounds and included immigrant and refugee women Aboriginal women and Anglo women Initially groups worked separately for the most part but as time went on they found ways to cooperate and collaborate This book presents an account of the ideas the diverse and shared efforts and the enduring hard work of women s health activists drawn together in one volume for the first time This relentless activism gradually had an impact on public policy and slowly brought forth major attitudinal changes The book also identifies the opportunities for health reform that were created along the way opportunities which deserve to be more fully embraced
