Ranch House Style Katherine Ann Samon, 2003 If you grew up in postwar America chances are you lived in or next to a ranch style house And the things we loved about ranches when we liked Ike are still attractive perhaps more so today the liberation that comes with open plan living the casual feel of easy kitchen access the comfort of having bedrooms and children near at hand the convenience of one level living and the everyday luxury of smooth indoor outdoor flow So it's no surprise that the ranch is in style again and this book showcases the best of it Whether that style is the mid century modern of Corbusier and the Eameses or the cross cultural awareness of the sixties or the Pop Art and plastic of the seventies Ranch House Style offers inspiration and instruction on recreating these looks in your own home But this book isn't just for style mavens with professional decorators Because if there's any one completely American democratic architectural style it's the ranch house Ranches in all their glory and sometimes utter lack of it are everywhere usually affordable just waiting for the right shag carpet to restore their hipness the right flea market find to liven up that patio And Ranch House Style shows how with examples of the ranch's flexibility for any decorating style from Victorian and French Country to thoroughly contemporary from primary homes in the suburbs to vacation getaways on the shore from vintage gems to newly built originals It also shows how to solve the special challenges that come with one story living in a decades old house including how to expand into today's more spacious footprints how to renovate for modern amenities and how best to use the ranch's typically large plot of land Remarkably there hasn't been a book on ranches available in decades Despite the millions that exist across the entire country the ranch has been ignored by the high design community To address that insult to ranch lovers Ranch House Style also includes thoroughly researched authoritative material on the style's history sociological context architects designers and furniture This is a serious work that stands alone in its field in addition to being a beautiful inspirational and practical decorating book So come visit the ranch both the remarkably familiar and the strikingly original from modest to luxurious in styles from charming to mod available in neighborhoods everywhere here showing in all its coolness

Abrams Abrams American Guide House Style Book Review: Unveiling the Power of Words
