Disassembly Required Geoff Mann, 2013-08-16 Capitalism is a complex dynamic and extraordinarily robust way of organizing human life it is also a system that achieves prosperity for the few impoverishes the many and depletes the commons for all We know that

capitalism is a broken system in desperate need of change But to imagine a different system we first need to understand how capitalism actually exists today and be able to explain to others how it works and why change is needed Disassembly Required is an attempt to meet these challenges It offers an anti capitalist analysis of capitalism and even more important it explains why it is anti capitalist It does not stop at claiming that the present way of organizing the economic aspects of our lives is politically indefensible and ecologically unsustainable but digs into the details of capitalist institutions and the economics that justify them From money and markets to the subprime crisis it explains the fundamental features of contemporary capitalism and how they contribute sometimes in surprising ways to overall capitalist dynamics A brilliantly lucid book Mann illuminates the basic principles of modern capitalism their expressions in contemporary economies and states and their devastating socio ecological consequences for working people everywhere This is a must read if we are to envision ways of organizing our common planetary existence that are not based upon the illusory promises of market fundamentalism and the suicidal ideology of endless economic growth Neil Brenner New State Spaces Geoff Mann is a new breed of monkey wrencher He knows that contemporary capitalism has a perverse habit of dismantling itself and gives us a toolkit to build a new more socially just edifice Andy Merrifield Magical Marxism Insightful and incisive thoughtful and thorough filled with new avenues for thinking about resistance Pass this one by at your own peril Matt Hern Common Ground in a Liquid City An essential handbook for understanding actually existing capitalism and thus the world as it really is rather than as it is theorized and justified by the dissembling high priests of mainstream academia policy and politics Christian Parenti Tropic of Chaos

The Martyr's Prize Brooks William Kelley,2010 For Kyle Simms and Jason Lanford the discovery of a roadside bomb tutorial will prove a seminal event changing every aspect of their lives from that moment forward Posted to an extremist website the meticulous schematics hint at a new era one in which the daily death and destruction previously confined to the third world is to be brought to the American heartland A mere touch of the sticky silk is all it takes and the two find themselves drawn into a world so foreign both literally and figuratively that they are forced to reassess everything they previously understood about the history of Western Civilization and the global war on terror The Martyr s Prize tells a tale of

American exceptionalism paying homage to the heroism and professionalism of our Special Forces and Counterterrorism communities while delivering a profound message the alarming non fiction groundwork already in place and presented in the actual words of our enemies for the future subjugation of the West This plan to bring about the elimination of all belief systems beyond their own is at once spellbinding and horrifying in the face of its likely success **Publications Combined:**
