Educational Screen & Audio-visual Guide ,1971 Interdisciplinary Approaches to Language C. Georgopoulos, Roberta Ishihara, 2012-12-06 The thirty two papers in this collection are offered to Professor S Y Kuroda by his friends as a gesture of their deep respect and enduring affection One of the many ways in which Professor Kuroda has impressed us all is in the breadth of his interests and areas of expertise He is one of those rare scholars whose work and interests span the whole

range of his discipline He is a figure of such intellectual stature that he has inspired influenced and encouraged researchers in an astonishing variety of projects He continues to do so at an unslackened pace today just as his own productivity remains vigorous But mention of Yuki's inspiration and influence is inadequate without mention of his special humorousness his mischievous wit his charm and as a friend has added a unique warmth Knowing Yuki and counting him quality to our lives We who have contributed to this collection have done so in partial acknowledgement of and gratitude for this benign and masterful influence The contributions to the collection reflect the range of Yuki's own interests and cover a rich variety of approaches to the analysis of natural language These include papers in philosophy psychology computer science artificial intelligence and linguistics and within linguistics the entire breadth of the field phonology morphology syntax semantics pragmatics and computation Though diverse in their themes language areas and foci the papers are bound by their authors common bond to Yuki
