Alcatraz Inmate Tour Guide:

My Life's Journey Dell Wright, 2005-07-11 In pursuit of an affordable opportunity to travel and see the world and meet with the native people of these various foreign countries the book tells of how the writer was able to make contact with natives in their homeland see and learn of their daily typical lifestyle and simultaneously assist the United States Government with achieving some of its national goals and national prides The book as its story unfolds tells how the writer accomplishes his twofold interest as he joined and became a solid force amongst his technical team providing his technical expertise to some of this country's largest leading edge technology defense contractors The book tells the story how the writer joined with highly trained and skilled engineers scientists and technicians and shared his technical work experience and technical skills with these respectable trained professionals on some of NASA's highly publicized space explorations and missions programs Dell Wright has traveled to such exotic places as Hong Kong China Singapore Bangkok Thailand Taiwan Nigeria Kenya Africa Saudi Arabia Morocco Jordan Ecuador S A Bogota Columbia S A England Germany Amsterdam Mahe Seychelles Island and more *Ghosts and Legends of Alcatraz* Bob Davis and Brian Clune, 2019 Alcatraz is one of the most infamous prisons in the world Evil spirits unknown beasts vicious murderers and an untold number of ghosts all are said to reside on this tiny island in San Francisco Bay Rufus McCain who died a brutal death at the hands of a fellow inmate is said to roam the grounds and the basement cells used for solitary confinement were rumored to be so frightening that inmates who endured one stint never wanted to go back Multiple escape attempts were thwarted including two attempts by Sam Shockley who was later executed with fellow inmate Miran Thomson Join Bob Davis and Brian Clune as they explore chilling tales of death murder and savagery from America's Devil's Island *Learning-Through-Touring* Juliet Sprake, 2012-03-26 Learning through Touring uncovers ways in which people interact with the built environment by exploring the spaces around between and within buildings The key idea embodied in the book is that learning through touring is haptic the learner is a physical cognitive and emotional participant in the process It also develops the concept that tours rather than being finished products are designed to evolve through user participation and over time Part One of the book presents a series of analytical investigations into theories and practices of learning and touring that have then been developed to produce a set of conceptual methods for tour design Projects that have tried and tested these methods are described in Part Two Technologies that have been utilised as portable tools for learning through touring are illustrated both through historical and contemporary practices In all of this there is an underlying belief that what is formally presented to us by authorities is open to self discovery questioning and independent enquiry The book is particularly relevant for those seeking innovative ways to explore and engage with the built environment mobile learning educators learning departments in museums galleries and historic buildings organisations involved in bridging the gap between architecture and public understanding and anyone who enjoys finding out new things about their environment **Twisted Tour Guide Central California: From Silicon Valley**
