Trusting YHWH Lorne E. Weaver, 2019-02-27 To open the Book of Psalms is to enter the world of God To read the Psalms is to read the words of God and hear the words of these ancient people in response to this God who has graciously drawn them into an eternal covenant The Book of Psalms is one continuous conversation that ranges over many centuries perhaps nearly a millennium between the God of Israel and the people of Israel or more accurately the God of glory and this particular people who have been called to live life on the edge of glory as the people of God There is no mystery to this conversation It is all an embroidery of grace Modern day readers may find themselves caught in the nexus between personal experience and the desire to live a life of faith on the other These will find a voice in the Psalms Ancient Israel strove to put their trust in the One God of All in the face of myriad challenges throughout her long history What we find here is a bold witness to their hard won faith and confidence in the sheltering presence of the One God of All This is a message that is especially timely for people who may desire the deeper dimensions of life and faith amid the inescapable incongruities and anxieties of postmodern life

Cover photo by Author **Septuagint: Daniel (Chisianus Version)** Scriptural Research Institute, Daniel ben Abal, Habakkuk ben Jesus, 1901 The Old Greek translation was the version originally in the Septuagint however the authenticity and accuracy of any and all versions of the Book of Daniel have always been in doubt The Codex Chisianus also

known as the Chigi Manuscript 88 is accepted as being the closest to the Old Greek translation. It claims to be a copy of the Christian scholar Origen of Alexandria's recension from circa 240 AD and as the Syriac translation of Origen's recension from 616 and 617 AD the Syro Hexaplar Codex is virtually identical. They are both accepted as Origen's work. Origen rejected both the shorter version of Daniel found in the Hebrew and Aramaic translation that the Jews of his day were using as well as Theodotion's translation which was largely based on the Hebrew and Aramaic text and claimed the Old Greek translation was the closest to the original text of Daniel. In 1931 a damaged papyrus from the 3rd century AD was found now known as Papyrus 967 which contains a Greek translation of Daniel that is similar to the Codex Chisianus and Syro Hexaplar Codex's version of Daniel but does not seem to be Origen's work supporting his recension as being the Old Greek version. While the content of the Codex Chisianus Syro Hexaplar Codex and Papyrus 967 are essentially the same Papyrus 967 deviates from the others by having Daniel's visions found in chapters 7 and 8 earlier in the book before Masoretic chapter 5 likely moved due to confusion over the identities of the two kings named Belshazzar. This translation follows the oldest documented chapter structure of Daniel starting with the chapter of Susanna and incorporating the Old Greek versions of Masoretic chapters 7 and 8 earlier in the book as found in Papyrus 967. Overall Daniel may be one of the most abused of the ancient authors as several authors appear to have added to or redacted his work during the Persian Era. The surviving copies of Daniel are such a mess that they are generally dismissed as a work of fiction by most secular historians that research them as they do not correspond to any version of Babylonian Median and Persian history although being set in the Neo Babylonian and Early Persian Eras. Ironically the early sections of the Book of Daniel could only have been written in the Neo Babylonian and early Persian eras as the redactions that took place to the earlier sections of text only make sense in the political reality of the Early Persian Empire.

*Septuagint: 4<sup>th</sup> Kingdoms* Scriptural Research Institute, 2019-12-12 The Septuagint's 4 Kingdoms tells the history of the

kingdoms of Samaria and Judah from circa 850 BC until the Babylonians conquered Judah circa 600 BC This era of history is well documented in the historical records of the Assyrians Egyptians and Babylonians and unlike the earlier books of the Kingdoms is generally accepted by historians This era included the rise and fall of the Aramean Empire based in Damascus the rise and fall of the Assyrian Empire farther north the Assyrian wars against Egypt and the sack of Thebes and ultimately the rise of the Babylonian Empire During this tumultuous time the kingdoms of Israel Judah and Aram which also appears to have been considered an Israelite kingdom by the prophet Ezekiel struggled for survival and fell one by one to the expanding empires around them Before the era of 4 Kingdoms Samara had established an empire occupying the Aramean kingdoms of Damascus and Hama in modern Syria which had ended suddenly when an earthquake had leveled Samaria The earthquake was mentioned in the Book of Amos and archaeological evidence of it is found throughout modern northern Israel and the Palestinian West Bank It is estimated to have been between 7.8 and 8.2 on the Richter Scale and aftershocks likely lasted around 6 months In the aftermath Damascus rose to form its own Aramean empire occupying Hama and northern Samaria as well as Gilead in southern modern Syria which had been part of Samaria since the division of Israel into Samaria and Judah However as Assyria began to expand to the north Samaria and Aram formed an anti Assyria alliance and the Samarian forces were stationed in Aram to help defend the northern border from the Assyrians Judah was invited to join the alliance but instead formed an alliance with the Assyrians and invaded and pillaged Samaria and southern Aram Judah continued to be an ally of Assyria as the Assyrians conquered Aram Samaria and Sidon which had also allied with them Fortunately as Samaria finally fell to the Assyrians after a three year campaign the king of Assyria died sparking a civil war between rival heirs This civil war provided Judah with almost twenty years to build up defenses and King Hezekiah built extensively across his kingdom Archaeological evidence of Hezekiah's construction projects is common in the region around Jerusalem and the southern region of the Palestinian West Bank including the Broad Wall in Jerusalem and the Siloam Tunnel which connected Jerusalem with a water source outside the walls of the city Ancient records of anti siege artillery on the walls of Jerusalem also exist likely ballistas or catapults so it is clear the Judahites knew they would be next While the Assyrians did lay siege to Jerusalem according to 4 Kingdoms they were not able to conquer the city The Assyrian Annals record the campaign against Judah and record the cities they captured which did not include Jerusalem and so historians accept the general account of what happened found in 4 Kingdoms
