Alexander Conquers The World A Story About Learning And Motivation:

Positive Schooling and Child Development Sibnath Deb, 2018-07-20 This volume discusses the importance of positive schooling in producing responsible and potentially productive adults. Students are generally more motivated to do well and to realize their full potential in schools that have a positive schooling climate where they feel safe, included, and supported. Nevertheless, the reality in today's schools is very different. This volume discusses the major challenges faced by children and adolescents in schools, including problems with curricula, safety issues, lack of inclusive policies, non-availability of teachers, ineffective teaching, insensitivity towards students, issues with improper evaluation methods, harmful disciplinary measures, and so on. Experts in child psychology and education discuss these issues at length in this volume and offer viable solutions for policymakers, school administrators, teachers, and parents to make suitable changes and create a positive atmosphere in educational institutions. This volume further discusses the role of various stakeholders: school principals, teachers, counsellors, and psychologists in addressing these challenges. In addition, it raises other emerging issues which have not been covered in previous volumes on this topic and offers evidence-based suggestions to address them. The intended readership of the volume is researchers and students of psychology, education, sociology, social work, and public health, and school teachers, administrators, and teacher trainers.

Alexander Conquers the World Martin Lehn, 2014-10-24 When teenaged Alexander meets the mysterious teacher Chiron, it marks the beginning of an intellectual journey that will change his life. Alexander becomes fascinated by the man's breadth of knowledge and begins to realize that there is more to life than playing computer games, and more importantly, realizes that Chiron can teach him how to succeed. In *Alexander Conquers the World*, Martin Lehn offers his reading audience a wealth of knowledge, wisdom, humor, and understanding of what it takes to motivate young people to learn and succeed in life. He does this in the form of clever multigenre fiction composed of authorial narrative as well as emails and computer chats between Alexander and Chiron. The result is a fascinating look at what can happen when a complete stranger voluntarily takes on the role of mentor to a teenage boy trying to discover who he is and where he is going in life. Each chapter focuses on one key to success. The story follows Alexander's intellectual and emotional growth as he struggles to understand how motivation, mindset, sleep, exercise, willpower, habits, and diet are vital to successful learning. At times resistant to complying with Chiron's assignments and missions, Alexander gradually understands that this mysterious man is teaching and sharing ideas far beyond what he has learned in school. Recommended for everyone in pursuit of student success. Besides being an entertaining read, this multifaceted book can serve a variety of educational purposes. High school teachers can use it as supplemental reading for social studies, personal health, and psychology courses. The book can also be useful at the college level for entering freshmen trying to find their way around the often confusing college campus, whether it involves academic pursuits, social endeavors, or personal relationships. *Alexander Conquers the World* is sure to find a home on the shelves of teachers, students, and anyone else interested in educational fiction as an alternative to direct didactic

instruction Offering a wealth of knowledge on a variety of subjects this unique book definitely has a place in high school and college libraries as well as on the reading list of anyone between the ages of twelve and eighteen who wants to get the most out of life

Living a Motivated Life Raymond J. Wlodkowski, 2019-03-14 What if as psychologists and adult educators advocate a person chose a life where his motivation for the work itself determined what he did Living a Motivated Life A Memoir and Activities follows the author through forty years revealing how he selected vocational pursuits guided by his understanding of intrinsic motivation and transformative learning As a compass for relevant decisions these ideas gave energy and purpose to how he lived and an instinct as sure as sight for the future Written with nuance humor and unpredictability this story renders how he came to appreciate learning for the pleasure of learning Facing similar challenges as those of today's first generation college students the memoir narrates his unexpected college enrollment his friendship with an ancient history professor and his triumphs and travails as teacher psychologist human relations specialist

psychotherapist and adult educator This is the first memoir of someone who consciously chose to lead a professional life to experience flow on a daily basis It is an important step in the integration and evolution of intrinsic motivation theory and transformative learning But it reaches beyond this outcome sharing how the author aspired to be better at what he valued and showing how he discovered and extended these ideas to others **Alexander the Great** Samuel Crompton,2013

Alexander was one of the best military leaders history has ever known conquering most of the world known to the Greeks despite dying at a young age *Seekers of the Naked Truth* Paul LeValley,2018-01-01 Why would I spend a good portion of my time over the last 35 years gathering information on the Gymnosophists The story begins even earlier As an undergraduate student in the Flint College of the University of Michigan I pursued an English major with a strong history minor always looking for something between the two and rarely finding it Then in my practice teaching I happened into one of the early experimental high school courses in Interdisciplinary Humanities With the exciting interrelationships between art literature music philosophy and history I said YES this was what I had been looking for So I pioneered in teaching high school Humanities for the next few years Interdisciplinary Humanities was a bottom up movement Gradually colleges began offering Masters programs to give teachers the rich background they needed I decided I was not tied to Michigan where it was cold I would find the best Masters program in Humanities anywhere in the world and go there Well it turned out that the best Masters program in the world was at Wayne State University in Detroit of all places Unlike other programs that were really just double majors Wayne offered truly interdisciplinary classes Moreover they offered an Eastern track and a Western track Knowing that I would never find that Eastern track anywhere else I studied interdisciplinary courses in the cultures of India China Japan and Egypt The middle eastern professor was on sabbatical when I was there I especially liked India perhaps because I had already travelled around the world and India impressed me the most
