Mathisen, Danuta Shanzer, 2016-04-08 One of the most significant transformations of the Roman world in Late Antiquity was the integration of barbarian peoples into the social cultural religious and political milieu of the Mediterranean world The nature of these transformations was considered at the sixth biennial Shifting Frontiers in Late Antiquity Conference at the University of Illinois at Urbana Champaign in March of 2005 and this volume presents an updated selection of the papers given on that occasion complemented with a few others These 25 studies do much to break down old stereotypes about the cultural and social segregation of Roman and barbarian populations and demonstrate that contrary to the past orthodoxy Romans and barbarians interacted in a multitude of ways and it was not just barbarians who experienced ethnogenesis or cultural assimilation The same Romans who disparaged barbarian behavior also adopted aspects of it in their everyday lives providing graphic examples of the ambiguity and negotiation that characterized the integration of Romans and barbarians a process that altered the concepts of identity of both populations The resultant late antique polyethnic cultural world with cultural frontiers between Romans and barbarians that became increasingly permeable in both directions does much to help explain how the barbarian settlement of the west was accomplished with much less disruption than there might have been and how barbarian populations were integrated seamlessly into the old Roman world **The Rise and Fall of the Byzantine Empire** Monique Vescia, 2016-07-15 Growing on the heels of the collapse of the Roman Empire the Byzantine Empire was in some ways a continuation of its predecessor extending its history for another 1 000 years With a new capital at Constantinople however it also had a distinctly Eastern character of its own Readers are transported to Byzantium in this absorbing volume which recounts the history of this brilliant and articulate civilization as well as the many cultural and architectural achievements it spawned before falling to the Ottomans in 1453 Seminal events are covered in depth in the text and also highlighted in a timeline *Ancient Catastrophes and Forgotten Civilizations* Learn Alchemical, 2025-08-28 *Ancient Catastrophes and Forgotten Civilizations* takes readers on a gripping journey into humanity's deepest past where myth and science converge to reveal a world shaped

by fire flood and upheaval For centuries legends of deluges fiery skies and vanishing lands were dismissed as fantasy Yet modern geology archaeology and climatology now confirm what ancient storytellers preserved Earth has always been a restless planet and civilizations have risen and fallen under its violent hand From the cataclysmic eruption of Toba to the collapse of Santorini s volcano that may echo in the tale of Atlantis from the Younger Dryas impact hypothesis to the drowning of Doggerland and the Black Sea flood this book uncovers the scientific truths hidden in myths across cultures Aboriginal Dreamtime Norse Ragnarok and Native American flood stories are revealed as not just allegories but memory archives living records of events that reshaped landscapes and societies Blending mythological analysis with cutting edge science Ancient Catastrophes and Forgotten Civilizations reframes humanity s oldest stories as survival manuals from the past It is a chronicle of disasters that forged resilience innovation and cultural memory and a timely reminder that the forces which shaped our ancestors still surround us today

Understanding Leadership Robert M McManus, Gamaliel Perruci, 2015-04-10 Lao Tzu Marx the Buddha Ibsen Machiavelli these are just a few of the world s great thinkers who have weighed in on the subject of leadership over the centuries Yet the contemporary student of leadership often overlooks many of these names in favour of more recent theorists hailing from the social sciences Understanding Leadership An Arts and Humanities Perspective takes a different angle employing the works of the great philosophers authors and artists found in world civilization and presenting an arts and humanities perspective on the study of leadership The authors build their conceptual framework using The Five Components of Leadership Model which recognizes the leader the followers the goal the environmental context and the cultural values and norms that make up the leadership process Supporting the text are a wealth of case studies which reflect on works such as Ayn Rand s novella Anthem Eug ne Delacroix s painting Liberty Leading the People Charlie Chaplin s film Modern Times Athol Fugard s play Master Harold and the Boys Lao Tzu s poetic work Tao Te Ching and Anton n Dvo k s New World Symphony The authors also introduce studies from various world cultures to particularly illustrate the role cultural values and norms play in leadership This illuminating framework promotes the multidimensional thinking that is necessary for understanding and problem solving in a complex world Understanding Leadership An Arts and Humanities Perspective will be a valuable textbook for both undergraduate and postgraduate leadership students while leadership professionals will also appreciate the book s unique liberal arts and cultural approach
