Federal Register, 2013-12 **History of Acquisition in the Dept. of Defense, Vol. II, Adapting to Flexible Response 1960-1968, 2013**, 2014 Patient involvement in the development, regulation and safe use of medicines Council for International Organizations of Medical Sciences (CIOMS), 2022-09-05 This report describes the importance of systematically involving patients throughout a medicine's life from its early development through the regulatory process to ongoing monitoring and safe use in everyday healthcare. It provides a comprehensive overview of the current knowledge about the benefits of patient involvement and existing initiatives, gives many examples and recommendations, and addresses the remaining challenges and practice gaps. The report will prompt readers to implement its best practice recommendations according to how well they fit in with their organizational and national needs. The report combines the experience and expertise of the CIOMS Working Group XI on Patient involvement in the development, regulation and safe use of medicines. It also incorporates views gathered from an open meeting in Switzerland and a workshop in Uganda which both brought together members of the public, patient organization representatives, regulators, drug development experts, industry, academia, health professionals, and other related stakeholders. The report was finalized following a public consultation. CIOMS is an international non-governmental non-profit organization with the mission to advance public health through guidance on health research and policy, including ethics, medical product development, and pharmacovigilance. <https://doi.org/10.56759/iiw8982>

Faces Inside and Outside the Clinic Tony McHugh, 2016-04-15 Drawing on studies of surface topography image editing and diagnostic and surgical experience *Faces Inside and Outside the Clinic* addresses the notion of truth in what are considered to be right and wrong faces whether in clinical cosmetic procedures or in specific sociocultural contexts outside the clinic With attention to the manner in which the human face and often the individual herself or himself as a consequence is physically defined conceptually judged numerically measured and clinically analysed this book reveals that on closer inspection supposedly objective and evidential truths are in fact subjective and prescriptive Adopting a Foucauldian analysis of the ways in which normalising technologies and techniques ultimately preserve and expand upon an increasing array of abnormal facial configurations *Faces Inside and Outside the Clinic* shows that when determining right and wrong faces what happens inside the clinic is inextricably linked to what happens outside the clinic and vice versa As such it will be of interest to scholars and students of social cultural and political theory contemporary philosophy and the social scientific study of science health and technology

Evaluating Interreligious Peacebuilding and Dialogue Mohammed Abu-Nimer, Renáta Katalin Nelson, 2021-09-20 In the emerging fields of religious and interreligious peacebuilding the question of monitoring and evaluation is a challenging yet necessary process The need to develop comprehensive yet fitting evaluation models for religious and interreligious peacebuilding is not only important for donor interests but also critical as a means of documenting and learning for peacebuilders themselves Theories and best practices in monitoring and evaluation have become prevalent in many fields yet the amount of literature on evaluating intercultural and especially religious and interreligious projects remains scant in comparison This volume offers a unique contribution that not only looks at several of the challenges and implications faced by religious and interreligious peacebuilders but also provides concrete examples of new models and tools for monitoring and evaluating religious and interreligious peacebuilding projects In doing so this volume serves as a tool and point of reference for individuals and organizations developing and implementing interreligious dialogue and peacebuilding projects

that affect us all **Age-Friendly Cities and Communities in International Comparison** Thibault Moulart,Suzanne Garon,2015-12-01 The supportive role of urban spaces in active aging is explored on a world scale in this unique resource using the WHO's Age Friendly Cities and Community model Case studies from the U S Canada Australia Hong Kong and elsewhere demonstrate how the model translates to fit diverse social political and economic realities across cultures and continents ways age friendly programs promote senior empowerment and how their value can be effectively assessed Age friendly criteria for communities are defined and critiqued while extensive empirical data describe challenges as they affect elders globally and how environmental support can help meet them These chapters offer age friendly cities as a corrective to the overemphasis on the medical aspects of elders lives and should inspire new research practice and public policy Included in the coverage A critical review of the WHO Age Friendly Cities Methodology and its implementation Seniors perspectives on age friendly communities The implementation of age friendly cities in three districts of Argentina Age friendly New York City a case study Toward an age friendly European Union Age friendliness childhood and dementia toward generationally intelligent environments With its balance of attention to universal and culture specific concerns Age Friendly Cities and Communities in International Comparison will be of particular interest to sociologists gerontologists and policymakers Given the rapid adoption of the age friendly perspective following its development by the World Health Organization the critical assessment offered in this volume is especially welcome Professor Chris Phillipson University of Manchester *Teen Pregnancy and Parenting* Keri Weed,Jody S Nicholson,Jaelyn R. Farris,2014-08-01 Whether glamorised or stigmatised teenage parenthood is all too often used to stand for a host of social problems and empirical research results ignored Identifying core controversies surrounding teen pregnancy and parenting this book resolves misperceptions using findings from large scale longitudinal and qualitative research studies from the US and other Western countries Summarising the evidence and integrating it with a systems perspective the authors explore ten prevalent myths about teenage parents including Teen pregnancy is associated with other behavior problems Children of teen parents will experience cognitive delay adjustment problems and will themselves become teen parents Better outcomes are achieved when teen mothers live with their own mothers Teen pregnancy costs tax payers lots of money Abstinence education is the best way to prevent teen pregnancy Teen Pregnancy and Parenting ends by highlighting the prevention and intervention implications for families practitioners and policymakers It will be of interest to academics and advanced students from a range of disciplines and professions including psychology public policy nursing social work and sociology Failing Families, Failing Science Elaine Ecklund,2016-08-30 Work life in academia might sound like a dream summers off year long sabbaticals the opportunity to switch between classroom teaching and research Yet when it comes to the sciences life at the top U S research universities is hardly idyllic Based on surveys of over 2 000 junior and senior scientists both male and female as well as in depth interviews Failing Families Failing Science examines how the rigors of a career in academic science makes it especially difficult to

balance family and work Ecklund and Lincoln paint a nuanced picture that illuminates how gender individual choices and university and science infrastructures all play a role in shaping science careers and how science careers in turn shape family life They argue that both men and women face difficulties though differently in managing career and family While women are hit harder by the pressures of elite academic science the institution of science and academic science in particular is not accommodating possibly not even compatible for either women or men who want to raise families Perhaps most importantly their research reveals that early career academic scientists struggle considerably with balancing their work and family lives This struggle may prevent these young scientists from pursuing positions at top research universities or further pursuing academic science at all a circumstance that comes at great cost to our national science infrastructure In an era when advanced scientific research and education is more important than ever *Failing Families Failing Science* presents a compelling inside look at the world of the university scientists who make it possible and what universities and national science bodies can do to make a difference in their lives

Dealing with Bioethical Issues in a Globalized World Joris Gielen, 2020-01-09 This book addresses the complexity of talking about normativity in bioethics within the context of contemporary multicultural and multi religious society It offers original contributions by specialists in bioethics exploring new ways of understanding normativity in bioethics In bioethical publications and debates the concept of normativity is often used without consideration of the difficulties surrounding it whereas there are many competing claims for normativity within bioethics Examples of such competing normative bioethical discourses can be perceived in variations and differences in bioethical arguments within individual religions and the opposition between bioethical arguments from specific religions and arguments from bioethicists who do not claim religious allegiance We also cannot merely assume that a Western understanding of normative bioethics will be unproblematic in bioethics in non Western cultures and religions Through an analysis of normativity in Christian Hindu Buddhist Islamic and Jewish bioethics the book creates awareness of the complexity of normativity in bioethics The book also covers normative bioethics outside an explicitly religiously committed context and specific attention is paid to bioethics as an interdisciplinary endeavor It reveals how normativity relates to empirical and global bioethics which challenges it faces in bioethics in secular pluralistic society and how to overcome these By doing that this book fills an important gap in bioethics literature

Human-Centered Digitalization and Services

Marja Toivonen, Eveliina Saari, 2019-06-03 This book provides a timely overview of the impacts of digitalization from the perspective of everyday life and argues that one central issue in digitalization is the development of new types of services that digitalization enables but which are often overlooked due to the focus on new technologies and devices The book summarizes the past 20 years of research into the relationship between information and communications technology ICT and service innovation and reveals that the ongoing digitalization is a qualitatively different phenomenon and represents a true paradigm shift The all encompassing integration and distribution of data raises critical issues such as preserving human

dignity and individual autonomy moreover interaction practices that foster broad participation trust learning and a willingness to share knowledge are called for Citizen empowerment and multi actor co creation have become central to using digitalization to support the development of wellbeing and sustainability Further the book shows how employees and professionals can and should be involved in designing their future work and in evaluating it Proactiveness and participation in innovation endeavours are ways to guarantee meaningful work in an age of socio technical transition The book employs a variety of theoretical approaches and perspectives from diverse disciplines to illustrate these needs In addition to theoretical analyses some specific application areas are examined e g services in health and social care and problems linked to robots in elderly care Given its scope the book is highly recommended to all readers seeking an overview of the current understanding of the human side of digitalization and searching for concrete cases from different countries to illustrate the topic
