Academic Writing And Theological Research By Keith Gary Smith:

Glimpses of a Strange Land Cyril S. Rodd, 2001-08-02 In this challenging book Cyril Rodd questions many of the assumptions that lie behind recent studies of Old Testament ethics. He views the strangeness of the biblical world and wonders whether there is an Old Testament ethics in the modern sense of the word, finding rather that the Old Testament writers did not regard many of today's ethical dilemmas as problems at all. Dr Rodd examines all the Old Testament writings on five ethical issues: the poor, war, treatment of animals, ecology, and the position of women. He considers their validity and relevance for today and discusses the extent to which they can be referred to for authority or for inspiration and guidance.

The Crisis of Evangelical Christianity Keith C. Sewell, 2016-04-26 In the broad context of Christianity as it developed over two millennia and with special reference to the last three centuries, this discussion finds that Evangelicalism has repeatedly offered a reduced and distorted understanding of the faith. The evangelical outlook is much less scriptural than evangelicals generally assume. When it comes to appreciating the order of creation, our calling to develop integral Christian thinking and living, the religious significance of culture, and the coming of the kingdom, reductionist Evangelicalism struggles with its only rarely acknowledged deficiencies. As a result, we have all too often ended up with a Christianity shorn of its cosmic scope and wide cultural implications and restricted to institutional church life and the cultivation of private spiritual experience. The consequences are frequently enervating and corrosive. Without disregarding what is important in the past, evangelicals are here challenged to take the Bible much more seriously and thereby transcend the limitations of their habitual reductionism. Evangelicals are encouraged to embrace an integral and full-orbed understanding of Christian discipleship that will equip the faithful to address the deep and complex challenges of the twenty-first century. *Encyclopedia of the Novel* Paul

Schellinger, 2014-04-08 The *Encyclopedia of the Novel* is the first reference book that focuses on the development of the novel throughout the world. Entries on individual writers assess the place of that writer within the development of the novel form, explaining why and in exactly what ways that writer is important. Similarly, an entry on an individual novel discusses the importance of that novel, not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre. A wide range of topic entries explore the history, criticism, theory, production, dissemination, and reception of the novel. A very important component of the *Encyclopedia of the Novel* is its long surveys of development of the novel in various regions of the world. **Bài Vi_t H_c Thu_t Và Nghiên C_u Th_n H_c** Gary Kevin Smith, 2017-07-19 M_t b_i v_i t_h_c thu_t v_nghi_n c_u th_n h_c hay l_m t_b_i v_i t_nh_th_n o C_u tr_l_i s_c t_m th_y trong c_u n B_i Vi_t H_c Thu_t v_Nghi_n C_u Th_n H_c c_a Kevin Gary Smith v_c c_c ng_s C_u n_s ch_n y_c b_i n s_o n_v_i m_c ch_cung_c_p nh_ng h_ng d_n chu_n b_v v_i t_b_i nghi_n c_u th_n h_c t_b_c c_n b_n nh_t_n n_g cao N_a ph_n u_c a s_ch tr_nh b_y nh_ng nguy_n t_c c_b_n c_a m_t b_i v_i t_h_c thu_t hay Ph_n 2 cung_c_p nh_ng h_ng d_n ng_n g_n s_c t_ch v_c c_th_l_o i_nghi_n c_u th_ng g_p trong l_nh v_c th_n h_c nh nghi_n c_u gi_i kinh_th_n h_c h_th ng_th_n h_c th_c h_nh v_c c_d ng_b_i t_p kh_c nh_i m_s ch nghi_n c_u t_nh hu ng Ph_n n_y ch_y u_d

A Modern Introduction to Theology Philip Kennedy, 2009-09-22 Philip Kennedy here offers the first book that any student with or without religious convictions can profitably use to get quickly to grips with the essentials of the Christian religion its history and its key thinkers its successes and its failures Most existing undergraduate textbooks of theology begin from essentially traditional positions on the Bible doctrine authority interpretation and God What makes Philip Kennedy s book both singularly important and uniquely different is that it has a completely new starting point The author contends that traditional Christian theology must extensively overhaul many of its theses because of a multitude of modern social historical and intellectual revolutions Offering a grand historical sweep of the genesis of the modern age and writing with panache and a magisterial grasp of the relevant debates conflicts and controversies A Modern Introduction to Theology moves a tired and increasingly incoherent discipline in genuinely fresh and exciting directions and will be welcomed by students and readers of the subject

Kingdom to Commune Patricia Appelbaum, 2009-03-01 American religious pacifism is usually explained in terms of its practitioners ethical and philosophical commitments Patricia Appelbaum argues that Protestant pacifism which constituted the religious center of the large scale peace movement in the United States after World War I is best understood as a culture that developed dynamically in the broader context of American religious historical and social currents Exploring piety practice and material religion Appelbaum describes a surprisingly complex culture of Protestant pacifism expressed through social networks iconography vernacular theology individual spiritual practice storytelling identity rituals and cooperative living Between World War I and the Vietnam War she contends a paradigm shift took place in the Protestant pacifist movement Pacifism moved from a mainstream position to a sectarian and marginal one from an embrace of modernity to skepticism about it and from a Christian center to a purely pacifist one with an informal flexible theology The book begins and ends with biographical profiles of two very different pacifists Harold Gray and Marjorie Swann Their stories distill the changing religious culture of American pacifism revealed in Kingdom to Commune

Liberation Theology Along the Potomac Edward F. Terrar, 2011 Explores the particular beliefs of Maryland s Catholic laborers who were at odds with the traditional English Catholic gentry in opposition to their crown parliament clergy and papacy and sympathetic to the Protestant Antinomians seeking to challenge the established order of Maryland s church and state The economic intellectual legal and social history of the Maryland Catholics during the English Civil War is compared to related developments in Europe Latin America and Africa

Bodies in Society Margaret R. Miles, 2008-08-01 Education is about learning to think Much of what we call thinking however is a hodge podge of repetitious self talk opinion and cutting and pasting of second hand ideas Moreover thinking in the present has often been alien to scholars who were tempted to think abstractly But life and thought belong together and require each other as Plotinus pointed out many

centuries ago The object of contemplation is living and life and the two together are one Ennead 3 8 8 Presently many women and men in the academic world are thinking concretely within the context of their own lives and with acknowledged accountability to broader communities with whom they think and to whom they are answerable The essays in this volume consider Christianity as an aspect of North American culture bringing the critical tools of the academy to thinking about some of the perplexing and pressing problems of contemporary public life Three interactive and interdependent themes traverse these essays gender the effects of media culture and institutions Each of these themes has been central to Margaret Miles's work for thirty years Each understands corporeality as fundamental both to subjectivity and society Miles finds that Christianity critically appropriated provides ideas and methods for thinking concretely about life in North American society
