DEEP DIVE FOR FANS OF WoW Exploring the popular online role playing game World of Warcraft as a virtual prototype of the real human future World of Warcraft is more than a game There is no ultimate goal no winning hand no princess to be rescued WoW is an immersive virtual world in which characters must cope in a dangerous environment assume identities struggle to understand and communicate learn to use technology and compete for dwindling resources Beyond the fantasy and science fiction details as many have noted it s not entirely unlike today s world In *The Warcraft Civilization* sociologist

William Sims Bainbridge goes further arguing that WoW can be seen not only as an allegory of today but also as a virtual prototype of tomorrow of a real human future in which tribe like groups will engage in combat over declining natural resources build temporary alliances on the basis of mutual self interest and seek a set of values that transcend the need for war What makes WoW an especially good place to look for insights about Western civilization Bainbridge says is that it bridges past and future It is founded on Western cultural tradition yet aimed toward the virtual worlds we could create in times to come
