2. Who are Frederick and Pilkington?

Frederick and Pilkington are the owners of the farms that reside on each side of Animal Farm.

3. In what ways do the humans try and stop the spread of Animalism?

The humans try and stop the spread of Animalism by stating "the animals there practiced cannibalism, tortured one another with red-hot horseshoes, and had females in common" (Orwell, 55). They were basically trying to spread lies so that the animals would not want to rebel.

4. Where does Snowball get his ideas for defending Animal Farm?

Snowball gets his ideas for defending Animal Farm by studying "an old book of Julius Caesar's campaigns" (Orwell, 57).

5. Describe how the animals are able to successfully defend the farm against the humans.

7. How do the animals celebrate their victory?

The animals celebrate their victory by reassembling "in the wildest excitement, each recounting his own exploits in the battle" (Orwell, 59).

They also hoisted the flag and sung *Beasts of England*.

8. What part does Napoleon play during the Battle of the Cowshed? What do you think this says about him? During the Battle of the Cowshed, Napoleon was not present whatsoever. His lack of presence shows that Napoleon does not care for the well-being of everyone and does not share in the defense of the farm.

Ecology and Behaviour S.D. Wratten, 2012-12-06 This book is about video techniques not video technology To deal with the latter would be a thankless task as by the time the book was published it would be out of date given the rapid rate of development of video hardware However these technological advances do help to make it an exciting field As Joe Riley says in Chapter 1 Advances in video technology continually produce improvements in performance and reductions in both the cost and size of equipment so it seems certain that the technique will prove to be an even more useful resource in the future In selecting the topics and authors represented in this book I have tried to encompass most of the behavioural and ecological uses to which video is likely to be put over the next decade or so I believe the book has captured the invaluable accumulated experience of the most active practitioners of the medium in this research area The idea for the book arose from two workshops on the use of video in ecology and behaviour held at Southampton University UK during the 1980s Three learned societies were involved in these meetings the Association of Applied Biologists the British Ecological Society and the Society for Experimental Biology
